Software Vendor/Developer Product Summary

The Kaypro Software Directory

Introduction

The Kaypro Software Directory is published by Kaypro Corporation to keep Kaypro Dealers and End Users informed of application software products currently available to run on Kaypro II, 4, and 10 CP/M based portable microcomputers.

The directory is divided into three sections. The first two sections are actually indexes referencing the third section or "body" of the directory.

The first section is an index of applications arranged by topic. The second section is an index arranged by program name.

The third section, or body, of the directory is a summary of Software Vendors/Developers and the applications software products they offer. It is arranged by vendor name.

How To Use This Directory

1) Locating Applications by Topic

Select your topic of interest from Section 1 in the table of contents. Page numbers for subtopics are not listed but subtopics follow alphabetically through each topic section.

Next turn to the corresponding page number in Section 1 - Applications Software Index by Topic. Here you will find a list of applications and their summary location in Section 3 (the body).

For example, to locate farm management applications look for Agriculture under Specific Industries in the table of contents. Specific Industry applications begin on page 117 of the topic index. It will look like this:

SPECIFIC INDUSTRIES

Agriculture

APPLICATION/VENDOR	COMPATIBLE SYSTEMS	PAGE

ACCOUNTSTAR Northhouse Industries, Inc.	Kaypro II,4,10	405
ACCOUNTSTAR Vertisoft	Kaypro II,4,10	595

AG-PAYROLL
Countryside Data, Inc.

Kaypro II,4,10

160

* 117 *

ACCOUNTSTAR is an Agricultural Application that will run on a Kaypro II, 4, or 10. It is sold by Northhouse Industries, Inc. and is described on page 405 of Section 3:

Company: Northhouse Industries, Inc.

7110 W. Fond Du Lac Ave.
Milwaukee

WI 55414

Anne Jackson
Phone: 414-438-0610

ACCOUNTSTAR

Complete agriculture (farm) accounting system

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

AccountStar is a complete set of agricultural accounting programs. It gives you the kind of precise control that means high productivity and higher profits for your farm. It is an easy-to-use fully integrated package with no prior knowledge of computers needed to operate. AccountStar includes general ledger, accounts payable, payroll, and accounts receivable all in simple menu driven packages. All programs are linked so it is only necessary to enter data once. This one time data entry obviously reduces the chance for errors. You enter data as single-entry and AccountStar automatically converts to double-entry reports and data files. Source: Fortran. Manual included.

Warranty/Terms

1 YEAR

LEASING AVAILABLE--\$495 PER MODULE

Date released: 11/ 1/83

405

=====

Company contact and support information is followed by its product line summary. Northouse Industries offers a selection of support at no charge (N/C).

ACCOUNTSTAR is an Agricultural Accounting System which retails for \$495.00 and runs on a Kaypro II, 4, or 10. A one year warranty is offered and the system may be leased. The program was released in November of 1983.

Occasionally applications require additional software in order to run (i.e. some dBase II applications require the dBase II Runtime module). These instances are noted by the phrase "Required SW:".

If applications are supplied on 8" standard CP/M floppy disks the notation (8") will appear to the right of compatible systems. These products will have to be downloaded onto Kaypro 5 1/4" diskettes.

2) Locating Applications by Product Name

Section 2 - Applications Index Alphabetically is a listing of Application Software Products by name. If you know a specific product by name use this index to locate its summary page and vendor in Section 3.

Phone: 201-444-7575

Support Offered/ Price:

Software Upgrades

N/C

THE PERFECT ENHANCEMENT

A PW control key to keyboard function key enhancement

Price: \$ 49.95

Compatible Systems: Kaypro II,4,10

With this enhancement of Perfect Writer, a touch of the 'code' key turns every key of the Kaypro keyboard into a function key for the next keystroke. A label affixed to the front of each key shows which of the more than 75 Perfect Writer editing functions it performs. All the functions are covered, including a couple that Perfect Software documentation forgot to tell you about. No longer is it necessary to know the differences between ²F, ²F, ²X, ²F, and ESC...F; you don't ever have to use them. Documentation included.

LOAN AMORTIZATION ILLUSTRATOR

Illustrates the breakdown of principal and interest

Price: \$ 39.95 Compatible Systems: Kaypro II,4,10

Illustrates the breakdown of principal, month by month for any loan amount for any length of time for any rate of interest. Prints on screen and hardcopy. Presentation quality hardcopy printout shows client and advisor names, amount of original loan, amortization period, rate of interest, and description of asset. Columnar readout shows total payment, amount to principal, amount to interest and remaining balance, month by month. Easy to use self tutorial and documentation. Source: MBASIC.

Warranty/Terms:

30 DAY DAMAGED DISK REPLACEMENT

Date released: 8/25/83 Last update: 8/25/83

POLICY COMPARISON ILLUSTRATOR

Compares any two level premium life insurance policies

Price: \$ 39.95 Compatible Systems: Kaypro II,4,10

Compares any two new, level premium life insurance policies for net difference in use of money over any period of years. Prints on screen and hardcopy. Presentation quality printout shows each policy's specifications, advisor and client names, insurance company names and prints out bottom line in dollars showing which policy is better. Source: MBASIC. Self-documentation included on the disk. Printed loading instructions.

Warranty/Terms:

30 DAY REPLACEMENT FOR DAMAGED DISK

Date released: 10/10/83 Last update: 10/10/83

POLICY COMPARISON ILLUSTRATOR +

Plus - life insurance policy comparison

Price: \$ 99.95 Compatible Systems: Kaypro II,4,10

Compares any two new level premium, cash value life

No Warranty is made expressed or implied by Kaypro Corporation.

POLICY COMPARISON ILLUSTRATOR +

insurance policies for net difference in use of money over a period of years. Prints on screen and hardcopy. Presentation quality printout shows each policy's specifications, insurance company names, client and advisor names and prints out bottom line in dollars showing which policy is better. Can illustrate newest level premium designs including vanishing premium, RLR, Universal Life, etc.. Source: MBASIC. Self-documentation included on the disk. Printed loading instructions.

Warranty/Terms:

30 DAY REPLACEMENT FOR DAMAGED DISK

Date released: 10/10/83 Last update: 10/10/83

POLICY COMPARISON ILLUSTRATOR ++

Super Plus - compares life insurance policy values

Price: \$ 299.95

Compatible Systems: Kaypro II,4,10

Compares any two new, term or cash value life insurance policies with the difference in premium invested at any interest rate. Allows for level and vanishing premium designs. ASTRO STAR I

Astrology calculation package

Price: \$ 295.00 Compatible Systems: Kaypro II,4,10

Computes natal, progressed, composit, solar- and lunar-
return horoscopes in less than 20 seconds for any date
in history. Does synastry, midpoints, and all types of
directed chart except primary. Tabulates and sorts
aspects and midpoints in many ways; prints chart wheel;
stores charts on disk for future reference. Tropical
and sidereal zodiacs; ten house systems; user-defined
orbs. Includes ten planets and mean lunar node; gives
geo and heliocentric longitudes and latitudes, right
ascension and declination, altitude and azimuth.
Source: Z-80 machine code. Transit Star (tm) optional.
Documentation includes 39 pages.

PURCHASE ONLY
Date released: 7/ 1/81 Last update: 9/ 1/83

No Warranty is made expressed or implied by Kaypro Corporation.

AGS Software

COMPOSITE ASTRO-REPORT

Astrology calculation and interpretation program

Price: \$ 350.00

Compatible Systems: Kaypro II,4,10

Analyzes a love or other relationship between two people by casting a composit chart--a single horoscope made from the midpoints between the planets of the two individuals. Produces a 20-page printed report analyzing in detail the house position and aspects of all planets, and the signs of the faster-moving planets. Also discusses the meaning of a greater-than-average number of planets in any one house. Prints out the two natal charts plus the composit chart in traditional wheel form. Purchase price of program includes a license to sell the printed output. Source: Compiled Basic.

Warranty/Terms:

PURCHASE ONLY

Date released: 10/ 1/83

CONTACT ASTRO-REPORT

Astrology calculation and interpretation program

Price: \$ 350.00

Compatible Systems: Kaypro II,4,10

Calculates the horoscopes of two people, then compares them for compatibility, producing a 25-page printed report. Text by astrologer Joan Negus explores what each partner is looking for in a relationship, then shows how the two charts interact, especially in terms of romance, sex and long-term relationships; how to make the best of the relationship's strengths and how to overcome its weaknesses. Price includes a license to sell the printed output. Source: Compiled Basic.

Warranty/Terms:

PURCHASE ONLY

Date released: 8/ 1/83

DELUXE ASTRO-SCOPE

Astrology calculation and interpretation program

Price: \$ 350.00

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

DELUXE ASTRO-SCOPE

Prints out a natal horoscope in traditional wheel form, then tells you what it means in 10-12 pages of text by astrologers Steve Blake and Robert Hand. Helpful, non-fatalistic, psychologically oriented text explains the meaning of all planets in their signs, houses and aspects to the Ascendant and Midheaven, and the meaning of any emphasis or lack of it in fire, earth, air or water and in cardinal, fixed or mutable signs. Does charts from A.D. 1800-2000; includes bulk loader and easy input routing. Price includes the right to sell the printed output. Source: Compiled Basic. Can be run from Superprogram II and by itself.

Warranty/Terms:

PURCHASE ONLY

Date released: 9/ 1/80 Last update: 1/ 1/83

MONTHLY ASTRO-REPORT

Astrology calculation and interpretation program

Price: \$ 350.00

Compatible Systems: Kaypro II,4,10

Prints out one-page forecasts for monthly or shorter periods using the birth horoscope compared with the current lunar return chart (a horoscope for the exact time each month when the Moon returns to the position it occupied in the birth chart). Using lunar oppositions, squares, etc, you can also do fortnightly, weekly and even daily reports, entering a year or more's worth of charts at a time, or the charts of many people at a time. Covers the years 1800-2000; includes tropical, sidereal and precession-corrected tropical zodiacal frameworks and eight house systems. Program includes a license to sell the printed output. Source: Compiled Basic.

Warranty/Terms:

PURCHASE

Date released: 8/ 1/83

PERSONAL NUMEROLOGY

Numerology calculations and interpretation

No Warranty is made expressed or implied by Kaypro Corporation.

AGS Software

PERSONAL NUMEROLOGY

Price: \$ 200.00

Compatible Systems: Kaypro II,4,10

Prints seven-page numerology report from input of full name and birth date. Calculates, then explains the meaning of, one's personal numbers for motivation, impression, expression, karma, hidden tendencies, subconscious response, destiny, life cycles, turning points and major and minor challenges. Also gives one's personal numbers for the current year, each month, and each day in the current year. Page one can be customized with your name and address or business message. Price includes a license to sell the printed output. Source: MBASIC.

Source code included.

Warranty/Terms:

Date released: 4/ 1/83

SEX-O-SCOPE

Astrology calculation and interpretation program

Price: \$ 200.00

Compatible Systems: Kaypro II,4,10

R-rated text is a witty description of one's sexual preferences and tastes as seen from one's complete, accurately cast natal horoscope. The 8 to 10 page printout describes the sexual meaning of the rising sign and each planet in its house and aspects; it also explains the sign of the faster-moving planets. Does charts from A.D. 1880-2000. Author John Townley has written many books including PLANETS IN LOVE, and was an editor of SEXOLOGY TODAY. Program includes a license to sell the printed output. Source: Compiled Basic.

Warranty/Terms:

PURCHASE ONLY

Date released: 11/ 1/80

SUPERPROGRAM II

Astrology calculation package

No Warranty is made expressed or implied by Kaypro Corporation.

SUPERPROGRAM II

Price: \$ 255.00

Compatible Systems: Kaypro II,4,10

Computes natal, progressed, solar and lunar-return horoscopes, printing a chart wheel and listing of geo and heliocentric longitudes and latitudes, right ascension and declination, retrogrades and 24-hour distance traveled. Optional second page has dignities tally and triangular aspectarian including ten planets, mean lunar node, Ascendant, Vertex, and Part of Fortune, with degrees and minutes from being exact, whether applying or separating. Input File Editor allows batch input of various types of charts. Accuracy: Sun and Moon to +/- 3" of arc; other points to 1' of arc. Source: Compiled Basic. Midpoints module (\$35) or Parans module (\$35) are optional.

ACTIVE TRACE

Debugging and learning tool for Microsoft Basic

Price: \$ 79.95 Compatible Systems: Kaypro II,4,10

Active Trace is a unique debugging and learning tool for Microsoft Basic. In addition to cross-reference utilities, Active Trace includes SCOPE. SCOPE lets you see inside your program as it runs. Automatically, any or all variables (and functions) are followed and displayed, along with their current value and line number, on the screen, printer, or disk. The disk file, a "histogram" of the BASIC programs activity, will combine with a word processor to automatically find the source of an error and display the circumstances surrounding its occurrence. In addition to debugging, it teaches Basic by showing the beginner what Basic does as it does it. 40 page reference included.

No Warranty is made expressed or implied by Kaypro Corporation.

THE UNITROLLER SYSTEM

For mini warehouse management

Price: \$5000.00

Compatible Systems: Kaypro 10

The software is designed for easy, yet comprehensive information management for mini warehouse managers. Software provides daily reports on unit vacancies, maintenance status, aggregated performance statistics, and receipts. Accounting reports range from journal activity and ledger balances on daily and monthly bases. Additional reports aid with collection and refunds. Month-end statistics are also available. System security allows three levels of access, allowing an "owner" to establish and enforce a rental rate policy to be applied by his "managers" and "clerks". Capacity: Kaypro 10 - 2,000 mini-warehouse units. Source: MBASIC-80 compiled.

SOFTGUARD

Prevents software piracy

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

Prevents software piracy by binding the application package to the CP/M serial number, CPU serial number or other appropriate value by calculating and validating cryptographic validation values based on a patented method of using the U.S. Government approved Data Encryption Standard (DES). This approach does not prevent the authorized user from making backup copies, it prevents unauthorized use. The security level is improved by enciphering part of the application program on the disk to prevent reverse engineering. This approach is transparent to the user.

AFTER THE FACT PAYROLL

Taxware's client payroll management

Price: \$ 400.00

Compatible Systems: Kaypro 4,10

A system to record client written payroll checks, and summarize for quarterlies, W-2's and other purposes is essential to any firm doing write-up work. We have adopted a system which is not integrated with general ledger journalizing. Setup of client and employee data couldn't be faster or easier. A separate journal is printed showing all transactions. Checks with over limit FICA or SDI are immediately identified and an option is provided to transfer the excess to withholding. Self balancing and error detection are standard yet input is very rapid. Source: MBASIC-80.

Warranty/Terms:

90 DAYS

CLIENT WRITE UP

Taxware's general ledger system

Price: \$ 700.00

Compatible Systems: Kaypro 4,10

Our general ledger system has been designed to enable quick set up of client data, rapid data entry and yet comprehensive reports. Almost any existing chart of accounts with numbers 100 or larger will work. We provide sample setups. Features are automatic date duplication and reference number incrementation in data entry. Profit may be displayed at any time during entry. Multiple item distribution and test for invalid

No Warranty is made expressed or implied by Kaypro Corporation.

Advanced Computer Systems, Inc.

CLIENT WRITE UP

account numbers is standard. Unlimited numbers of journals may be selected with transactions per period limited only by disk size. Out of balance conditions are detected and you may not terminate data entry until you are in balance. Source: MBASIC-80.

Warranty/Terms:

90 DAYS

DEPRECIATION AND ACRS SCHEDULES

Taxware's depreciation and ACRS schedules

Price: \$ 300.00

Compatible Systems: Kaypro 4,10

We have adopted an integrated approach that utilizes one set of input per asset and then prints federal non ACRS, ACRS, and state schedules automatically with all calculations. You may select only those you wish to print. All data is stored with multiple clients on a disk and is updated and maintained each year. Once your assets are set up you won't have to do it again. Setting up is a good summer project. Printed schedules may be attached to tax returns.

Warranty/Terms:

90 DAYS

ESTATE PLANNING AND CALCULATIONS

Taxware calculates all estate taxes and credits

Price: \$ 300.00

Compatible Systems: Kaypro 4,10

Accountants, attorneys, insurance people and tax preparers are often asked to give advice concerning death tax consequences. Our estate program will rapidly calculate federal estate tax, unified credit, state death tax credit and top bracket. Also state inheritance tax by class of beneficiary. Legal and executor fees. Data may be displayed or printed. A model may be created by randomly selecting asset and deduction categories as per federal 706. At end of input the report is printed. The model may then be projected into

No Warranty is made expressed or implied by Kaypro Corporation.

ESTATE PLANNING AND CALCULATIONS

the future for selected 5 year increments, followed by report. Appreciation factors may be selective or overall. Rates are programmed through 1987.
Source: MBASIC-80. Includes documentation.

Warranty/Terms:

90 DAYS

INCOME TAX PLANNING

Integrates federal and state into one input sequence

Price: \$ 350.00

Compatible Systems: Kaypro 4,10

With this program no input forms are necessary. Almost any professional can sit down and generate a report, adjust and reprint. Rates are in for federal through 1984. Averaging, max tax, alternative minimum tax, add on minimum, state minimum are all automatic if data is provided. The report may be either displayed on the screen or printed. There are several options to printing, such as a complete report or various segments so that you do not have to wait while unnecessary data is spewed out. Data entered may be stored on disk for later recall or for printing multi-year analysis. This works great in combination with one of the electronic worksheet programs such as Supercalc, or Visicalc.
Source: MBASIC-80. Includes documentation.

Warranty/Terms:

90 DAYS

INDIVIDUAL TAX PREPARATION

Taxware's federal and selected state returns

Price: \$1350.00

Compatible Systems: Kaypro 4,10

Our tax preparation system has been designed to provide quick, easy, understandable operation yet prepare complete federal and selected state returns. California returns have been run for two years, and we plan to add Arizona, Idaho, Utah, and Oregon for the 1982 tax session. The system is designed to produce one complete return at a time. We suggest transparent overlays to

No Warranty is made expressed or implied by Kaypro Corporation.

Advanced Computer Systems, Inc.

INDIVIDUAL TAX PREPARATION

avoid changing forms and can show you how to make this an easy process. Simple returns can be input, calculated and printed in under 5 minutes. Involved returns take longer. Source: MBASIC-80.

Warranty/Terms:

90 DAYS

PAYROLL CHECK WRITING

Taxware's client payroll production system

Price: \$ 450.00

Compatible Systems: Kaypro 4,10

The TAXWARE payroll check writing system is fast and easy to set up and use. Input for each pay period is rapid, yet it gives you the opportunity to see all calculations on the screen instantly before accepting them. If OK then calculations are stored on disk for batch printing. You may print as little as a single check or a hundred at a time. All calculations are automatic including limits, yet you may override. You may print on continuous checks, voucher checks one at a time, or stub only. A journal may be printed before checks are printed. This journal will contain summary data for the general journal entry. Corrections may be made before checks are printed.

MANAGEMENT ACCOUNTING SERIES

Five integrated accounting system modules

Price: \$ 750.00 Compatible Systems: Kaypro 10

The Management Accounting (MAS), developed by American Integrity Systems, Inc., consists of five integrated accounting system modules. Features include stand alone modules or a fully integrated business system, the manual and the appropriate page number is displayed in each screen layout. Furthermore, MAS caters for three invoicing methods. Also a detailed sales analysis and sales history and stock order analysis. It has a capacity of 10,000 customers, 28,000 stock items, 10,000 vendors, and 8,000 general ledger accounts. It is fully integrated to word processing--WordStar, Select and Wordmanager, DBMS--dBASE II and Condor, and Financial Modelling--Microplan and Multiplan.

MAS ACCOUNTS PAYABLE SYSTEM V3.7

Controls the expenses of a business

Price: \$ 750.00 Compatible Systems: Kaypro 4,10

This package maintains a record of the company's vendors including name, address, balance owed, and purchasing history. The package maximizes the credit terms offered. Buying trends can be analyzed by several categories. Vendors can be paid either manually or automatically. The package provides for check printing from either type of payment. A remittance advice form can be produced to accompany the check detailing invoices being paid.

Warranty/Terms:

No Warranty is made expressed or implied by Kaypro Corporation.

MAS ACCOUNTS PAYABLE SYSTEM V3.7

90 DAYS

MAS ACCOUNTS RECEIVABLE SYSTEM V3.7

Business income control system

Price: \$ 750.00

Compatible Systems: Kaypro 4,10

This package maintains a record of all customers including name, address, balance owed, and buying history. The package maintains tight credit control by production of customer statements. Customer performance can be monitored by production of history reports which show the buying trends on a monthly and yearly basis. Comparisons can be made between last year's and this year's buying trends, affording more accurate management decisions. Accounts Receivable can be fully integrated with the following system modules in the Management Accounting Series: Sales Order Entry, Inventory Control, and General Ledger.

Warranty/Terms:

90 DAYS

MAS GENERAL LEDGER

Analyzes the financial details of a company

Price: \$ 750.00

Compatible Systems: Kaypro 4,10

MAS GENERAL LEDGER amalgamates the sales details from the Accounts Receivable ledger with the purchase and expense details of the Accounts Payable ledger into a single report showing the profit or loss of the company. The profit or loss is then combined with asset and liability details to produce a Balance Sheet. Fully integrated with the following system modules in the Management Accounting Series: Accounts Receivable and Accounts Payable.

Warranty/Terms:

90 DAYS

No Warranty is made expressed or implied by Kaypro Corporation.

American Integrity Systems

MAS INVENTORY CONTROL SYSTEM V3.7

Business inventory control system

Price: \$ 750.00

Compatible Systems: Kaypro 4,10

This package maintains a record of all products including item ID, name, price, cost, sales analysis, and profitability. Accurate control of physical inventory is maintained by the automatic production of stock take sheets. The sales history can be used to monitor the sales and profitability of all products. This package also integrates with the Accounts Receivable system during the production of invoices. During invoicing, the system will automatically update both Accounts Receivable and Inventory Control, providing immediate production of up-to-date sales and profitability reports.

Warranty/Terms:

90 DAYS

MAS SALES ORDER ENTRY SYSTEM (V3.7)

A complete order entry system

Price: \$ 750.00

Compatible Systems: Kaypro 4,10

This package provides the most complete facility of this kind on the market today. Incoming orders are automatically checked against stock, verifying quantities currently on hand or on order, and tracking back order and allocation status. It also provides complete shipping documentation, including schedules and picking slips, allows for partial shipments and even shipment on due or arrival date. The package can even accommodate pricing and selling of goods in multiple combinations, such as stocking and selling in drums, but pricing in gallons. Support for inquiry by sales order, customer, or inventory items, and full analysis by orders received, shipped, allocated or back ordered, is also included.

Warranty/Terms:

90 DAYS

No Warranty is made expressed or implied by Kaypro Corporation.

Price: \$ 475.00 Compatible Systems: Kaypro II,4,10 (8")

It is designed to depreciate 1-30 assets for 50 years, displays individual or total schedules. Includes tax preference and recapture calculations.
Source: FORTRAN. Documentation included.

Source code available.

Date released: 1/ 1/83

LOAN-V

Real estate sales analysis

Price: \$ 395.00 Compatible Systems: Kaypro II,4,10

LOAN-V system constructs and analyzes loans. Amortize standard loans or all inclusive loans with or without prepaid interest. Will also provide schedules for loans involving additional principal payments, prepaid interest payments, interest only payments, or variable interest payments. Source: FORTRAN. Documentation included.

Source code available.

Date released: 1/ 1/83

No Warranty is made expressed or implied by Kaypro Corporation.

Automated Analysis

OFFICE AND AGENT PRODUCTIVITY

Real estate assistant

Price: \$ 250.00

Compatible Systems: Kaypro II,4,10 (8")

This is a program that lists all salespersons, showing the number and amount of listings, sales with a breakdown of dollar value of each item and their commission. This program shows the income generation of each salesperson and office. Documentation included. Source: BASIC. Supplied on 8" IBM single density disk.

Source code available.

Date released: 1/ 1/80

PROPERTY ANALYSIS SYSTEM

Real estate assistant

Price: \$ 250.00

Compatible Systems: Kaypro II,4,10 (8")

All types of variables are considered including adjustments for appreciation and inflation. It provides projects of future value showing estimated cash flow, appreciation, equity buildup, return on investment, tax liability or benefit, market value, capital law's tax, and other financial information. All variables can be changed and their effect immediately displayed or printed. Documentation included. Source: BASIC.

Date released: 1/ 1/80

PROPERTY MANAGEMENT SYSTEM

Keeps track of all income and expenses

Price: \$ 795.00

Compatible Systems: Kaypro II,4,10 (8")

Keeps track of all income and expenses providing financial reports and includes a checkwriter, provides budgeting, and provides exception reports like a list of delinquent tenants, and a wealth of other useful information. This program is suitable for all types of income properties. Documentation included. Source: BASIC. Supplied on 8" IBM single density diskettes.

No Warranty is made expressed or implied by Kaypro Corporation.

PROPERTY MANAGEMENT SYSTEM

Date released: 1/ 1/80

REAL ESTATE OFFICE MANAGEMENT

Personal ledger system

Price: \$ 350.00

Compatible Systems: Kaypro II,4,10 (8")

This program is a personal ledger system that provides financial statements and management information designed especially for real estate brokers. It comes with the National Association of Realtor's recommended chart of accounts. It allows for forms with more than one office to show profitability of each office by providing a divisionalization of profit and loss statement. Documentation included. Source: BASIC. Supplied on 8" IBM single density disk.

Date released: 1/ 1/80

RESIDENTIAL PROPERTY MANAGEMENT

Real estate assistant

Price: \$ 895.00

Compatible Systems: Kaypro II,4,10 (8")

Keeps track of all income (tenants) and expenses (accounts payable) providing financial reports and includes a checkwriter, budgeting, and reports. It is designed for single unit properties like condominiums and houses. A common checking account can be used for all properties. Financial statements for each property are produced upon user request. It is designed to accommodate up to 500 properties on a single double density 8" diskette. Documentation included. Source: BASIC.

Date released: 1/ 1/80

RETURN SYSTEM

Real estate sales analysis

Price: \$ 300.00

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

Automated Analysis

RETURN SYSTEM

Return is used to evaluate loans and lease vs. buy decisions. Fast input, present value tables, discount amounts for varying return rates are provided.

AUTOCODE I

dBase II program generator

Price: \$ 195.00

Compatible Systems: Kaypro II,4,10

Menu-driven program generator. Novices can set up simple applications within an hour without opening the dBase II manual. Autocode source code is accessible and can be referenced as a learning tool by someone learning the ins and outs of the dBase language. Experienced programmers can use Autocode to write command files which can later be patched for complex applications, saving an enormous amount of time spent in routine writing. This allows more time for creativity in applications design. Autocode allows for alpha/numeric error trapping, calculated fields and selective reporting. Source: dBase II. Documentation included.

THE WORD PROCESSOR

Bible study aid - computerized version of the bible

Price: \$ 199.95

Compatible Systems: Kaypro II,4,10

This product has the ability to locate all verses that contain any specific words or phrases that you specify. Better than a concordance, THE WORD processor can find any phrase or string of characters. It can lend valuable assistance to studies of writing styles and authorship by doing a word or phrase frequency analysis when analyzing a portion of the Bible. It retains the results of each study you do and refers back to previous studies. For taking notes or sharing with others, it will transfer any portion of the text to the printer. Manual included. PAYMENT

Application for payment (AIA G703)

Price: \$ 195.00

Compatible Systems: Kaypro II,4,10

PAYMENT is designed to completely replace the AIA G703 continuation sheet form and can do all the necessary calculations on your microcomputer. This program reduces the amount of time required to process the Application for Payment and eliminates costly arithmetic and typing errors. With PAYMENT you can input descriptions of work items along with their scheduled values. Then each month you only need to input the amount of stored materials and either the work in place or the percent completed. All remaining amounts, balances, and retainages are automatically computed. Designed for general contractors or construction management. Capacity: 1,000 records. Source: BASIC - compiled. Includes documentation.

Warranty/Terms:

No Warranty is made expressed or implied by Kaypro Corporation.

SHOPDRAW

Contractor shop drawing/submittal control

Price: \$ 195.00

Compatible Systems: Kaypro II,4,10

SHOPDRAW was designed as a project management tool to help keep track of all project related shop drawings. Instead of logging each page of each drawing into a logbook, SHOPDRAW accepts entries and keeps them on a disk file. Once a data base has been created, several print options are available. All entries may be printed in a sequentially arranged, historical listing, or entries may be selectively sorted and printed. Since SHOPDRAW is able to present this information in a meaningful arrangement, and do so rapidly, its usefulness in forestalling project delays is significant. Designed for general contractors or construction management. Capacity: 1,000 records. Source: BASIC - Compiled. Includes manual.

PONY-PICK

The ultimate Thoroughbred handicapping program

Price: \$ 195.00

Compatible Systems: Kaypro II,4,10

PONY-PICK is a computer handicapping program. It uses ARTIFICIAL INTELLIGENCE in performing its forecast. It learns about your favorite tracks from the data you enter for each racing day and this allows it to 'fine tune' itself to these tracks and their conditions. It can pick up the short term variables such as new jockeys, etc. that can make every horse run slightly out of form. Because it adjusts itself, it permits you to change your wagering strategy accordingly and if for some reason its accuracy is down, it lets you know that too! PONY-PICK will run on any Kaypro.

Source: Run-Time System/Z.

GARAGEKEEPER (SYSTEM I)

An inventory control & invoicing system for automotives

Price: \$1500.00 Compatible Systems: Kaypro 4,10

GARAGEKEEPER is an interactive inventory control and invoicing system for automotive garages and other job shops. The inventory is reduced and purchase orders are generated automatically while the user prepares workorders. Estimates are supported and can be converted to workorders. Estimates, workorders, and invoices can contain labor as well as parts. The system handles special orders, and back orders are maintained until they are received or cancelled. Each inventory item can have up to 5 part number/vendor combinations. An average cost is maintained for each part. Capacity: Kaypro 4 - 1000 / Kaypro 10 - 10,000 inventory items. Source: FORTRAN-80. Quick reference card and user reference manual included.

CANDIDATE AUTOMATED RETRIEVAL

A comprehensive applicant data management system

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

CARS is a comprehensive applicant data management system which features: on-line query using multiple selection criteria for both applicants and position requisitions; interactive maintenance of all databases; summary Equal Employment Opportunity and Affirmative Action reporting; mailing label program; selective letter printing for: candidate resume updates, position offerings, and position reflections; multiple candidate databases including: prospective employees, affirmative action employees, and an existing organizational workforce.

RECRUIT

Employment Agency: personnel placement system

Price: \$1495.00 Compatible Systems: Kaypro II,4,10

RECRUIT gives placement services the competitive edge. It allows the user to match both applicant and job. Using modern computer technology, data that is critical to a placement service is stored on the computer for fast and accurate retrieval, thus allowing the user to find the right match before the competition does. A placement counselor enters either a new job or applicant into the RECRUIT system by responding to few simple questions. The placement counselor then can use RECRUIT to determine if qualified applicants or jobs exist on file. Applicants or jobs that match the selection criteria are examined by using the video display tube. Includes a comprehensive manual which guides the user through each support program.

No Warranty is made expressed or implied by Kaypro Corporation.

MENU

CP/M file utility for beginners

Price: \$ 169.00 Compatible Systems: Kaypro II,4,10

Menu is a cut down version of Power but doesn't include the programs which can damage a file. It does include the Power stalwarts with the package. COPY, ERASE, TEST, PROTECT/UNPROTECT, and RESTORE. ERASE is the program that is called ERA in Power, and RESTORE is the same as RECLAIM. PROTECT/UNPROTECT is an easy way to make files read-only (R/P) or read-and-write (R/W) without having to contend with the grammar of CP/M's STAT program.

Warranty/Terms:
30 DAY
Date released: 3/ 1/81 Last update: 1/ 1/83

No Warranty is made expressed or implied by Kaypro Corporation.

POWER

A CP/M utility program

Price: \$ 169.00

Compatible Systems: Kaypro II,4,10

Power is actually a compilation of 55 CP/M utility programs. Many of these need only be used infrequently or are well beyond the capability of a novice to master. The basic strength of the program is that it makes certain routine operations such as copying programs from one disk to another much easier for beginners and it is almost impossible to enter any of the really sophisticated routines-which let you get in and manipulate the bit structure of your file-by accident.

THE HOME ACCOUNTANT

Home and small business financial program

Price: \$ 99.95

Compatible Systems: Kaypro II

THE HOME ACCOUNTANT budgets, forecasts, provides net-worth statements, flags tax deductables, keeps track of checkbooks, reconciles bank statements and even prints checks. While the user only makes one entry per transaction (unless the transaction amount is split between more than one account), the program will make the corresponding entry automatically. This results in the equivalent of double entry accounting in an easy to use format. You may graph transactions or budgets, display

No Warranty is made expressed or implied by Kaypro Corporation.

ACCOUNTS PAYABLE

Aging of payables and cash requirements statements

Price: \$ 395.00 Compatible Systems: Kaypro 10

Includes aging of payables and a statement of the cash required to meet payable obligations at any point in time. The check register listing can be generated by a beginning and ending date specified by the operator. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.
Source: Microsoft COBOL.

ACCOUNTS RECEIVABLE

Module will interact with the general ledger

No Warranty is made expressed or implied by Kaypro Corporation.

Contract Research Software Corp.

ACCOUNTS RECEIVABLE

Price: \$ 395.00

Compatible Systems: Kaypro 10

The system allows the user to review clients' accounts receivable balances as well as payment histories. Unpaid bills are classified as a) current, b) 30-60 days old, c) 60-90 days old, and d) over 90 days old. The system accepts payments, applying them to client bills as directed by the user (for example, reducing disbursements before fees) and prints a payment journal for an audit trail. The Accounts Receivable sub-module will interact with the General Ledger. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

Source: Microsoft COBOL.

AMORTIZATION TABLES

Generates amortization tables

Price: \$ 95.00

Compatible Systems: Kaypro 10

Generates amortization tables from data supplied by the user; outputs tables to the screen, printer or a disk file for subsequent use with a word processor. User selects amount and term of loan, interest rate and frequency of payments. Output shows amount of principal and interest payments for any number of years specified. Also handles balloon payments. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

Source: Microsoft COBOL. Documentation included.

ARCHIVE FOR HARD DISK

Keeps a list of inactive clients and matters

Price: \$ 395.00

Compatible Systems: Kaypro 10

Keeps a list of inactive clients and matters, including time slips and disbursements, for possible future reference. Allows exact reconstruction of old client bills and review or verification of all work performed on a matter or for a client in the past. Can restore

No Warranty is made expressed or implied by Kaypro Corporation.

ARCHIVE FOR HARD DISK

inactive clients and matters to active files. Allows for more efficient use of limited storage on hard disk. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions. Source: Microsoft COBOL.

CLIENT BILLING

Four independent/interactive sub-modules

Price: \$1995.00

Compatible Systems: Kaypro 10

The Client Billing module consists of four interactive sub-modules that can be purchased separately or as a package. The sub-modules handle a) Time and Disbursements Accounting, b) Client Billing, c) Accounts Receivable, and d) Management Reports. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions. Source: Microsoft COBOL.

CLIENT BILLING 2

Format reflecting the client and attorney's needs

Price: \$ 695.00

Compatible Systems: Kaypro 10

The system has a wide range of billing formats reflecting various degrees of detail for the client. The format is selected by client which allows the attorney to print various selected formats during the same billing cycle. A prebilling procedure allows the user to "screen out" those clients to be billed by specifying a minimum amount such as \$200, that represents cumulative unbilled time and disbursements. Designed for lawyers, accountants, architects, engineers, consultants, and other time billing professions. Source: Microsoft COBOL.

DEPRECIATION TABLES

Generates depreciation tables

No Warranty is made expressed or implied by Kaypro Corporation.

Contract Research Software Corp.

DEPRECIATION TABLES

Price: \$ 95.00

Compatible Systems: Kaypro 10

Generates depreciation tables from data supplied by the user; outputs tables to the screen, printer or a disk file for subsequent use with a word processor. Uses straight line, sum of the year's digits and declining balance to calculate depreciation. Ideal for office support systems and for time billing professions. Designed for lawyers, accountants, consultants, architects, and engineers.
Source: Microsoft COBOL.

DOCKET CONTROL

Keeps useful tracking of important dates

Price: \$ 995.00

Compatible Systems: Kaypro 10

Keeps useful tracking of court appearances, appointments, events, due dates, expiration dates, patent and copyright renewal dates, and other various filings and dates maintained by the law office. Generates four main reports: matter information, attorney docket, firm docket, and statute of limitations. Conflict of interest sub-module searches docket and time-keeping entries for potential conflicting situations. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.
Source: Microsoft COBOL.

DOCUMENT INDEX

Stores and retrieves various documents, letters, etc.

Price: \$ 495.00

Compatible Systems: Kaypro 10

Stores and retrieves various documents, letters, etc.. Acts as a central reference or cross-index for any written materials a firm may wish to track. Uses key words to search all relative materials to a subject matter. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

No Warranty is made expressed or implied by Kaypro Corporation.

DOCUMENT INDEX

Source: Microsoft COBOL.

ESCROW ACCOUNT (OR TRUST)

For those clients with funds temporarily held in trust

Price: \$ 395.00 Compatible Systems: Kaypro II,4,10

For those clients with funds temporarily held in trust, a report can be generated monthly or on demand showing balances and transactions. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

Source: Microsoft COBOL.

GENERAL LEDGER

Offered in formats to suit needs of the firm

Price: \$ 695.00 Compatible Systems: Kaypro 10

Degree of detail can be selected when recording. Allows user to dictate range and depth of management analyses and summaries. Expansion of detail can take place at any time. Interface to client billing module minimizes user time and error. Reports include: profit and loss statement, balance sheet, chart of accounts, general ledger report, accounts journal, and the general ledger worksheet. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

Source: Microsoft COBOL.

INTERFACE TO WORD/DATA PROCESSING

Edits and prints bills with word processors

Price: \$ 395.00 Compatible Systems: Kaypro 10

Allows users to edit and print their bills in any format they choose using WordStar and other popular CP/M and MSDOS word processing programs. Also allows

No Warranty is made expressed or implied by Kaypro Corporation.

Contract Research Software Corp.

INTERFACE TO WORD/DATA PROCESSING

conversion of client billing files to formats compatible with popular database management report generation programs. Applications include preparation of specialized management data, and preparation of selected mailing lists from client files. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.
Source: Microsoft COBOL.

MANAGEMENT REPORTS

Produces five separate management reports

Price: \$ 495.00

Compatible Systems: Kaypro 10

A wide range of management reports are generated, including: most and least profitable areas of law practiced, client billing analysis, aged work in process, attorney billing analysis, and attorney productivity report. Designed for lawyers, accountants, consultants, engineers, architects, and other time billing professions.
Source: Microsoft COBOL.

TIME AND DISBURSEMENTS ACCOUNTING

Maintains client and matter files

Price: \$ 695.00

Compatible Systems: Kaypro 10

The system maintains files for each attorney, client, and matter. Information such as cumulative time on a matter by the entire firm or by individual attorneys may be retrieved, as well as billable and unbillable hours, cumulative disbursements for a client, disbursements for the firm during a given time frame, etc.. Different billing arrangements, such as hourly rates, contingency fees, flat fees or monthly retainer, can be handled. Designed for lawyers, accountants, consultants, architects, engineers, and other time billing professions.

ESTIMATING

Cuts estimating time from 50 to 80 percent

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

CMS estimating systems are adaptable and flexible to meet estimating needs. Cuts estimating time from 50 to 80 percent while increasing accuracy of bids. The adaptability and flexibility of the system coupled with faster more accurate estimates gives the capability to be more responsive to clients. This provides quicker analysis of cost alternatives, resulting in more bids because of overall better estimator productivity. It saves estimators time by allowing for easier takeoffs with calculations automatically performed much quicker by the computer. CMS, is dedicated to the research, design, development, marketing and servicing of computer estimating. Source: M Basic. Documentation included.

LOAN-PAK

Loan amortization calculation and schedule printing

Price: \$ 79.95

Compatible Systems: Kaypro II,4,10

LOAN-PAK is a very powerful and flexible loan amortization calculation and schedule printing program. By answering a few yes/no questions to describe the loan, and by entering the basic loan data (principal, interest rates, etc.), LOAN-PAK calculates loan payments, and produces the loan schedule, with or without sub-totals, with or without due dates, on calendar or fiscal basis, and with personalization if desired. Almost any type loan you desire can be calculated and printed. The program also produces a summary of the loan. Designed for attorney, accountant, real estate agent, lender, and loan officer. RANDOM HOUSE PROOFREADER

Screen-prompted spelling system

Price: \$ 50.00

Compatible Systems: Kaypro II,4,10

Proofreader is a simple, screen-prompted spelling system which includes the Random House 50,000 word (38,000 words on smaller formats) dictionary compressed to occupy much less disk space than comparably sized dictionaries. The dictionary contains proper names and geographic locations to reduce flagging of unrecognized words. The user may add words to the main dictionary or create auxillary dictionaries. Source: Compiled FORTRAN.

SPELLBINDER

The enhanced word processor

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

Spellbinder is a full feature word processing system with office management capabilities. Spellbinder features include easy use and quick start-up, flexible print formatting, and a powerful macro capability which allows features to be added as the user requires them. Terminal function keys allow one-key operations, standard and custom help messages are available to the

No Warranty is made expressed or implied by Kaypro Corporation.

SPELLBINDER

user. Files larger than memory can be easily managed, and directory listings include the size of each file as well as the remaining space available on disk.

SYNOPSIS

For CP/M file indexing--using a word processor

Price: \$ 89.00

Compatible Systems: Kaypro II,4,10

SYNOPSIS automatically creates, updates, searches, and displays an index of CP/M files. The index automatically maintains the filename, disk ID, plus four user defined comments about each file. The comments can be read into the Cardfile index from nonprinting "comment" lines in text files. Synopsis eliminates the need to remember the contents of text files and non-document files, and it provides a quick way to locate information by searching the index for words and phrases. Synopsis requires WordStar or a similar word processor.

THE MICRO LINK II

For telecommunications

Price: \$ 89.00

Compatible Systems: Kaypro II,4,10

The Micro Link II connects your computer to information sources, timesharing computers, and other micros. It sends and receives electronic mail, and exchanges any file (up to disk capacity) rapidly and inexpensively over phone line or direct cable. The Micro Link II saves all or selected parts of transmission to disk and/or sends them directly to printer. The menu-driven program sends and receives text, object, and source codes and all data types. No installation is necessary as the Micro Link II comes customized for your micro-computer. The program includes file transfer with error detection and correction. Source: Assembly.

No Warranty is made expressed or implied by Kaypro Corporation.

THE SPECIALIST

Medical billing and analysis

Price: \$ 995.00

Compatible Systems: Kaypro II,4,10

The Specialist is a medical billing/accounts receivable package that is customized for the billing and procedural codes of medical specialties. The easy-to-use program is designed for either single practice or groups of up to 9 doctors and is available in the following 5 specialties: anesthesiology, family practice, internal medicine, radiology, and surgery. Posting payments may be done as open item or balance forward. Accounting and charges, payments and adjustments may be classified by insurance source. Custom insurance forms and superbills are quickly created, detailed aging, charges, billfile and summary reports may be printed or viewed on the screen. Source: CB80 and CB86.

ACCESS MANAGER

B-Tree structured file retrieval system

Price: \$ 300.00 Compatible Systems: Kaypro II,4,10

Access manager is a file accessing method compatible with all of Digital Research's compiled languages. Access Manager interfaces multiple languages to a common data file. Access Manager maintains separate index and data files to eliminate the need to sort the data records. Access Manager supports both single user and multiuser operating systems. Supplied on Single Density Disk(s) with documentation. Source: ASM PL/I-80, CB80 and Pascal/MT + Ver. 5.5 .

No Warranty is made expressed or implied by Kaypro Corporation.

Digital Research, Inc.

BT-80

Record retrieval system

Price: \$ 200.00

Compatible Systems: Kaypro II,4,10

BT-80 is a comprehensive single-user record retrieval system intended for use in PL/I-80 applications, where single or multi keyed access to data records is required. BT-80 also can be used to develop data base management systems. Using the B-Tree index organization techniques, BT-80 keys are maintained in balanced, multi way tree structures called indexes that offer efficient key insertion retrieval and deletion characteristics over the broad range of access situations required by a general record retrieval system. Comes on single density disk(s) with documentation. Source: PL/I-80.

CB80

A direct enhancement of CBASIC

Price: \$ 500.00

Compatible Systems: Kaypro II,4,10

CB80 is a direct enhancement of CBASIC which offers all the CBASIC features and more. Features include supporting more than 32K byte strings, CALL statements, multiple-line functions, alpha-numeric labels and excellent error detection plus greater speed. Because it generates 8080 code in relocatable format, separate CB80 modules and other assembler routines can be linked together easily. Comes on double density disks with documentation. Source: PLM and ASM.

CBASIC

Programming language for microcomputers

Price: \$ 150.00

Compatible Systems: Kaypro II,4,10

CBASIC was created specifically for the development of business applications. Due to its efficient use of RAM, precision arithmetic capability, high level file management and compatibility with 16-bit products, more software packages have been written in CBASIC for

No Warranty is made expressed or implied by Kaypro Corporation.

CBASIC

commercial business applications than in any other microcomputer language.
Source: Compiler-PL/M, CRUN-PL/M and ASM.

CIS COBOL/CIS COBOL-86

Microcomputer programming language

Price: \$ 800.00 Compatible Systems: Kaypro II,4,10

CIS COBOL is a complete software system for developing and executing ANSI'74 standard COBOL programs. CIS COBOL combines the benefits of minicomputers or main frame COBOL, while allowing for the efficient interactive facilities of a personal computer. Its upward compatibility with Level II COBOL ensures program development for the entire range of COBOL applications. Supplied on single density disks with documentation. Source: COBOL.

CP/M

Microcomputer operating system

Price: \$ 200.00 Compatible Systems: Kaypro II,4,10

CP/M is the industry standard general purpose operating system for microcomputers. Features include dynamic file management, fast assembler, general purpose editor and advanced debugger. Network system compatible, CP/M provides cost-effective computing through the wide variety of software products available for it.
Source: PLM/ASM.

CP/M PLUS (3.0)

Microcomputer operating system

Price: \$ 350.00 Compatible Systems: Kaypro II,4,10

CP/M PLUS is a high performance single user, single tasking operating system designed for microcomputers

No Warranty is made expressed or implied by Kaypro Corporation.

Digital Research, Inc.

CP/M PLUS (3.0)

that use the Intel 8080 or Zilog Z80 microprocessors. CP/M PLUS was designed with the business user in mind. It includes a fast, sophisticated file system, which includes hashed directory access, record buffering and multi sector disk I/O support. It has a modular design which allows it to be easily customized to run in a particular hardware environment.

DESPPOOL

Programming utility

Price: \$ 75.00

Compatible Systems: Kaypro II,4,10

DESPPOOL is a printing utility for CP/M that allows disk file printing during editing or debugging. DESPOOL allows the operator to print a disk file during the inactive time that CP/M is waiting for console input. Thus, background printing can take place during normal interactive CP/M operations, such as program editing and data entry under ED and test program debugging using SID, ZSID OR DDT. Comes on double density disks with documentation. Source: ASM PL/M.

DR ACCESS 10

Graphics terminal emulator

Price: \$ 500.00

Compatible Systems: Kaypro 4,10 (8")

This product is an interactive utility that provides emulation of the Tektronix 4010 terminal family for microcomputers that have graphic displays. This product benefits a user who wants to access graphics packages on host computers and external time sharing systems. Any host software package that produces Tektronix PLOT-10 compatible output can be accessed. Supplied on single density disk(s) with documentation, Source: Fortran.

No Warranty is made expressed or implied by Kaypro Corporation.

DR KERNEL

Graphics development tool for programmers

Price: \$ 500.00

Compatible Systems: Kaypro 4,10 (8")

DR Kernel is a subroutine library of 2D graphics primitives. This product will provide a programmer's interface to graphics that is consistent with the ISO standard Graphic Kernel System (GKS). DR Kernel has been designed with special algorithms to operate in the memory space of microcomputers while providing the functions previously only available on mini and main frame computers. DR Kernel is both computer-independent and graphic output device-independent. Source: DR Kernel run-time libraries available for PL/I, Pascal/MI+, FORTRAN, and CBASIC Compiler.

DR PLOT

Higher level programmer tool for data rep. graphics

Price: \$ 500.00

Compatible Systems: Kaypro 4,10 (8")

DR Plot is a subroutine library of higher level functions for programmers who want bar graphs, pie charts, histograms, line graphs and scatter plots with full annotation functionality. This product makes it easier to write programs that produce typical business, engineering and scientific plots. DR Plot, like DR Kernel, also provides the full range of computer and graphic device independence. Comes on single density disk(s) with documentation 8", single user. Source: DR Plot libraries available for PL/I, Pascal/MT+, Fortran, and CBASIC Compiler.

LEVEL II COBOL-86

Microcomputer programming language

Price: \$1600.00

Compatible Systems: Kaypro II,4,10

Level II COBOL is a main frame level compiler for ANSI'74 COBOL programs. It enables microcomputers to compile and run programs written in full ANSI'74 COBOL with minimal source code modification, thereby allowing

No Warranty is made expressed or implied by Kaypro Corporation.

Digital Research, Inc.

LEVEL II COBOL-86

those with an investment in existing programs to maintain and execute them on microcomputers.
Source: COBOL.

MAC

Programming utility

Price: \$ 115.00 Compatible Systems: Kaypro II,4,10

MAC is a macro assembler upwardly compatible from standard CP/M assembler and Intel macro assembler, MAC-80. It provides full expression analysis and special instructions. Parameters can be specified to control file source and destination, etc. Sorted program symbols are suitable for listing online printer for use during debugging with SID. Supplied on double density disk(s) with documentation. Source: ASM.

PASCAL/MT+

Language

Price: \$ 350.00 Compatible Systems: Kaypro II,4,10

Pascal/MT+ is a compiled version of ISO standard Pascal which translates source code directly into a high-speed object code program for 8080, 8085, and Z80 microcomputers. With the associated Speed Programming Package (SPP), high speed programs can be written quickly by programmers and symbolically debugged in manageable segments.
Source: Pascal/MT+.

PL/I-80

Language

Price: \$ 500.00 Compatible Systems: Kaypro II,4,10

Based on ANSI Subset G for minicomputers, PL/I-80 is upwardly compatible with Subset G and full PL/I. The

No Warranty is made expressed or implied by Kaypro Corporation.

PL/I-80

compiler directly produces relocatable 8080 machine code. Features include picture specs, 25-digit decimal arithmetic and fast fixed and float binary, structures, arrays, and based and pointer variables. PL/I-80 includes a compiler, linkage editor, librarian, run-time library, and macro assembler. Source: PL/M.

TEX

Programming utility - text editor

Price: \$ 125.00

Compatible Systems: Kaypro II,4,10

TEX prepares documents for printout under CP/M. Features include automatic index and table of contents, pagination, margins, headings, paragraphs, and right justification. Special features include super and subscripts, bold type and underlining support. It is for Diablo 1640/1650 printers with the word processing enhancement option. Supplied on double density disk(s) with documentation. Source: ASM.

ZSID

Programming utility - symbolic debugger

Price: \$ 125.00

Compatible Systems: Kaypro II,4,10

SID and ZSID expand upon the features of the CP/M standard debugger and provide greatly enhanced facilities for assembly level program checkout. Features include real-time break points, fully monitored execution, symbolic disassembly, assembly, memory display, and full functions. SID uses the 8080/8085 assembly language mnemonics, while ZSID incorporates the Z80 instruction set. Source: ASM.

HOW TO USE SUPERCALC

Book and disk with sample spread sheets

Price: \$ 34.95 Compatible Systems: Kaypro II,4,10 (8")

SuperCalc is the bestselling program that prepares financial spreadsheets and forecasts. It runs on most CP/M based systems and the IBM with MS-DOS. This book is an easy way to learn, in simple terms and with down-to-earth directions, how to effectively use the spreadsheet format. Not only does the book explain what SuperCalc does, it tells how to organize, arrange and manipulate the data. It is also a reference manual that lists all of the program's functions and a definition and discussion of each one. Comes on an 8" CP/M disk.

CLIENT PROGRAMMED ACCOUNTING

Client write-up and after the fact payroll

Price: \$2995.00

Compatible Systems: Kaypro II,4,10

CPA is a mature, bug-free and flexible package designed to perform all of the write up functions necessary in an accounting or bookkeeping practice. CPA generates Journal and Chart of Account listings, Working Trial Balance, Detailed General Ledger, Regular, Budgetary and Comparative Financial Statements, Statements of Changes, etc., and does after--the--fact Payroll.

Source: BASIC.

Includes a user's manual. DMS recommends 1 client per Kaypro 2 disk. CPA users regularly process any where from 1-250 clients per month, depending on format of source information.

ACTIVE CIRCUIT ANALYSIS PROGRAM

An active and passive circuit analysis program

Price: \$ 43.95

Compatible Systems: Kaypro II,4,10

ACAP is an active and passive circuit analysis program. It can be used to solve for the node voltages of a network. The circuit elements which can be analyzed by ACAP are resistors, capacitors, inductors, voltage sources, current sources, and a voltage controlled current source. To describe a circuit to ACAP, you may easily enter and change the element descriptions. You may also save the circuit description on tape/diskette in order to later recall it. Source: Basic. Comes

No Warranty is made expressed or implied by Kaypro Corporation.

Dynacomp, Inc.

ACTIVE CIRCUIT ANALYSIS PROGRAM

with a 12 page instruction manual.

ANOVA

Analysis of variance

Price: \$ 43.95

Compatible Systems: Kaypro II,4,10

ANOVA is actually four programs in one. Each program performs a specific task matched to the designed experiment under analysis. 1) A one-way ANOVA produces the treatment sum of square, mean square and F ratio along with the error mean square. 2) Two-way performs an analysis of either fixed or random factors with equal numbers of replicates per cell. 3) The "N-way" accepts up to 4 levels per factor or any combination of levels not to exceed 1024 treatment combinations in 16K of core. Sums of squares and mean squares for all main effects are computed. 4) YATES analysis computes the mean square and half effect for two level factorial and fractional factorial experiments. Source: Basic. Includes 15 page guide to experimental design & methods.

BACKGAMMON 2.0

Computerized backgammon game

Price: \$ 23.95

Compatible Systems: Kaypro II,4,10

This program (by Giga, Chicago, IL) tests your backgammon skills and will also improve your game. A human can compete against the computer or against another human. The computer can even play itself! Either the computer or human can double or generate dice rolls. Board positions can be created or saved for replay. BACKGAMMON 2.0 is played in accordance with the official rules of backgammon, and is sure to provide many fascinating sessions of backgammon play. Source: Basic. Manual included.

BASIC SCIENTIFIC SUBROUTINES

Software corresponds to text of same title

Price: \$ 20.95

Compatible Systems: Kaypro II,4,10

BASIC SCIENTIFIC SUBROUTINES, VOLUME I by F.Ruckdeschel is the first in a series of books designed to provide microcomputer users with scientific subroutines written in BASIC. Through arrangements with the author and BYTE/McGraw-Hill, DYNACOMP has become the exclusive distributor of three software packages keyed to the above text. Each package includes programs organized by chapter and accessed/demonstrated by a special menu program written especially for DYNACOMP. Accompanying each collection is documentation which describes how to use the associated menu program.

BEAM DEFLECTION

Structural analysis software

Price: \$ 39.95

Compatible Systems: Kaypro II,4,10

BEAM DEFLECTION is the first in DYNACOMP's new series of structural analysis software packages. It consists of two programs. The first program permits the development of data files which describe the problem. For example, the ends of the beam may be pinned, clamped or free. The beam may be uniformly supported by an elastic bed, or held up by springs variously placed and having differing spring constants. The elasticity and cross section of the beam may vary along its length. The load may be uniformly distributed or it may include discrete forces. The beam may be pinned at various points along its length, and so on. Source: Basic. The documentation shows how to use the software.

CRANSTON MANOR ADVENTURE

An adventure game

Price: \$ 19.95

Compatible Systems: Kaypro II,4,10

KAYPRO users finally have available a most intriguing adventure program. The CRANSTON MANOR ADVENTURE takes you into mysterious (and dangerous) Cranston Manor where you attempt to collect its many treasures. Lurking in the Manor are wild animals and robots who will not give up the treasures without a fight. This challenging program will provide you with many hours of fascination. The adventure may be interrupted at will and your status saved onto the disk. Any number of people may play. The CRANSTON MANOR diskette will store over 200 suspended games. CRANSTON MANOR comes with a 6 page instruction booklet which outlines the means of play, but does not give away the solution. Source: Basic. Manual included.

CRYPTO

A comprehensive cryptography program

Price: \$ 17.95

Compatible Systems: Kaypro II,4,10

CRYPTO is a comprehensive cryptography program which is both challenging and educational. There are two basic ways to play CRYPTO. 1) Automatic. The computer chooses

No Warranty is made expressed or implied by Kaypro Corporation.

CRYPTO

from a file of over 350 quotations which one or two players must decipher. 2) Manual two player. Each player creates his or her own phrase, and CRYPTO creates a cryptogram for the other to decipher. You may choose the level of difficulty so even the young can play (teaches deductive reasoning and reading skills), and guess by letter or word. Source: Basic. Manual included.

CUSTOMER PROFILE

Keeps track of current and prospective customers

Price: \$ 59.95

Compatible Systems: Kaypro II,4,10

CUSTOMER PROFILE provides an easy way to keep track of current and prospective customers according to business type, services or products provided by the customer, and assigned sales representative or territory. CUSTOMER PROFILE is extremely flexible and accommodates the unique ways business is conducted. For example, data files can be quickly sorted to present reports in a sequence appropriate to management requirements. Additionally, the system codes can be redefined to meet the special needs of any company. Comes complete with an exceptionally well prepared 50 page instruction book. Source: Basic.

DATA SMOOTHER

Smooths data points

Price: \$ 23.95

Compatible Systems: Kaypro II,4,10

This package provides the user with a fast and easy means to least-squares smooth equally spaced data and to plot the results. Any size data set may be treated within the memory limits of your machine. The variation in each data point is smoothed according to the weighted average of points surrounding it. The averaging span is 3 to 25 points. The order of the local smoothing is linear to quintic (first of fifth degree polynomial). Also calculated are the smoothed first and second derivatives of the data at each point. DATA SMOOTHER is extremely well documented in the accompanying 38 page manual which describes both the theory behind the program, as well as its use. Source: Basic.

DIFFERENTIAL EQUATIONS

Yields numeric solutions to differential equations

Price: \$ 19.95

Compatible Systems: Kaypro II,4,10

DIFFERENTIAL EQUATIONS is a series of programs which yield numerical solutions to ordinary differential equations given suitable initial conditions. Only two restrictions are placed on the differential equation being solved. First, it must be explicitly expressible in some sequence of the standard BASIC mathematical operators: +, -, /, EXP, LOG, or the trigonometric functions SIN, COS, and ATN. Second, enough initial conditions must be provided to make the solution unique - that is, for an equation of order N, N simultaneous (at the same value of the independent variable) initial conditions must be known. Several different methods of solution can be chosen, i.e. Euler, Improved Euler, and Runge-Kutta techniques. Source: Basic.

DIGITAL FILTER

Filter function design aid

Price: \$ 53.95

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

Dynacomp, Inc.

DIGITAL FILTER

DIGITAL FILTER is a comprehensive data processing program which permits the user to design his own filter function or choose from a menu of filter forms. The filter forms are subsequently converted into non-recursive convolution coefficients which permit rapid data processing. In the explicit design mode, the shape of the frequency transfer function is specified by directly entering points along the desired filter curve. In the menu mode, ideal low pass, high pass and bandpass filters may be approximated to varying degrees according to the number of points used in the calculation. These filters may optionally also be smoothed with a Hanning function. Source: Basic. Manual included.

EBASIC WITH STARBASE 3.2

A Basic programming language

Price: \$ 39.95

Compatible Systems: Kaypro II,4,10

EBASIC is a BASIC programming language which has most of the standard features of Microsoft BASIC, as well as some other capabilities which many will find interesting. In fact, EBASIC is very similar to CBASIC except EBASIC costs only a fraction of the price. The operational differences are that EBASIC has no PEEK/POKE, PRINT USING or CALL facilities. Features: Line numbers are not necessary except for GOTO/GOSUB transfers; "Procedures" can be included in the program at the "compile" stage; precision is automatically 14 digits. A condensed manual is supplied with the diskette. Also a copy of STARBASE 3.2 (a very popular DYNACOMP program) is included on the diskette. Source: Basic. Manual included.

ELIZA II

Artificial intelligence program

Price: \$ 19.95

Compatible Systems: Kaypro II,4,10

This is the well known artificial intelligence program which was originally written by Joseph Weizenbaum for the large computers at MIT. ELIZA simulates a session with a psychotherapist who analyzes your comments and responds accordingly. This program has gained particular recognition for its surprising ability to provide realistic responses to your statements, and has often been referred to in reference to Turing's test for human intelligence. FLIGHT SIMULATOR

Take-off, fly, navigate, and land an airplane

Price: \$ 23.95

Compatible Systems: Kaypro II,4,10

Learn from this realistic mathematical simulation which allows you to take-off, fly, navigate, and land an airplane. The program employs kinematic aerodynamic equations, as well as applies the characteristics of a real airfoil to simulate the response of flying machines ranging from gliders to space shuttles. Unlike most arcade-like animations, FLIGHT SIMULATOR realistically portrays the problems associated with stalls, landing with the nose wheel first, cross winds, etc. You can practice touch and go landings, take a cross-country trip, or just practice exercising the flight controls; flaps, trim, elevators, bank and throttle. A program for the thinker! Source: Basic.

GO FISH

Adapted from the classic childrens' card game

No Warranty is made expressed or implied by Kaypro Corporation.

GO FISH

Price: \$ 18.95

Compatible Systems: Kaypro II,4,10

GO FISH is the childrens' card game, adapted for one player against the computer. The game strategy is simple, yet provides an easy way to introduce children to the concepts of chance and analysis, as well as being an enjoyable and challenging game. It is also a pleasant way of introducing a child to the computer. Source: Basic.

GUMBALL RALLY ADVENTURE

An adventure game

Price: \$ 21.95

Compatible Systems: Kaypro II,4,10

The GUMBALL RALLY ADVENTURE is based loosely on the movie "Gumball Rally". It is an outlaw race from the East Coast to the West Coast by any route you choose. You can go as fast as you want but, if you crash or get thrown in jail for reckless driving you lose. Ordinarily, you would have a map to plan your route, but, as every true adventurer knows, you must draw your own map. In the movie, the winner won a gumball dispenser of the type you used to find on the sidewalk in front of drugstores. Hence, the name. Source: BASIC.

HANDICAPPER

Handicapping scheme for thoroughbred races

Price: \$ 33.95

Compatible Systems: Kaypro II,4,10

HANDICAPPER is a handicapping scheme designed for thoroughbred races of lengths 6, 6 1/2, or 7 furlongs. It was designed by a mathematician and has been tested by professional bettors and handicappers. In general, you can expect HANDICAPPER to produce the winning horse about 40% of the time. However, in certain instances, it can be much more accurate. Source: Basic. Manual included.

Source code included.

HARMONIC ANALYZER

Fourier transform software package

Price: \$ 33.95

Compatible Systems: Kaypro II,4,10

HARMONIC ANALYZER is the third in Dynacomp's series of Fourier transform software packages. Whereas FOURIER ANALYZER and TRANSFER FUNCTION ANALYZER (TFA) were designed with limited duration signals in mind, HARMONIC ANALYZER is specific to repetitive wave forms (cyclic processes). All the data entry, storage, retrieval, and editing features of TFA have been included as well as the signal and transform plotting functions. The Fourier Integral has been replaced with a Fast Fourier Transform routine which is the essence of the harmonic analysis. A cubic spline interpolation procedure has been added so that the user may transform irregularly spaced data. Data need not be entered in temporal order. It is sorted before being transformed.

IRONCLADS

Simulation of naval strategy

Price: \$ 29.95

Compatible Systems: Kaypro II,4,10

IRONCLADS is a simulation of naval strategy and tactics between steam and wind driven warships of the 1860s through 1890s. Although originally designed for two players, single play against yourself is possible. Source: Basic. Manual included.

LADDER NETWORK

Determines network (cascaded two-ports) responses

Price: \$ 33.95

Compatible Systems: Kaypro II,4,10

LADDER uses the technique of describing a network as a series of cascaded two-ports. This representation is sometimes pictured as a "ladder". Each two port is described individually, from load to source, in a data file generated by following the program prompts. Each element type and value is then read and an "ABCD" matrix for each element is generated. This matrix describes the transfer characteristics of the two-port element and the multiplication of two or more "ABCD" matrices will yield the total transfer characteristic of the series of two-ports. Source: Basic. Manual included.

LOGIC DESIGNER

An interactive digital design program

Price: \$ 34.95

Compatible Systems: Kaypro II,4,10

LOGIC DESIGNER is an interactive digital design program (not a simulator) which greatly speeds up and simplifies digital hardware design. Error-free solutions of combinational logic problems having between 2 and 8 input variables are obtained quickly and easily. Previously, such capability has been available only on large mini and mainframe computers. The program prompts for a user-defined truth table (including "don't care" conditions) and reduces the input data into two boolean logic equations. Either equation can then be directly and easily converted into digital hardware. Source: Basic. Includes 15 page manual.

Source code included.

MANAGEMENT SIMULATOR

Management simulation game

Price: \$ 29.95

Compatible Systems: Kaypro II,4,10

This program is both an excellent teaching tool, as well as a stimulating intellectual game. The MANAGEMENT SIMULATOR (by Giga, Chicago,IL) is based on similar games played at graduate business schools by teams of managers. The game realistically models the economic marketplace of the business world. Each player, or team of players, controls a company which manufactures three products. The company competes against other companies, each of which sells three similar products. Each player attempts to out-perform his competitors by selecting what he perceives to be an optimum operating strategy. Source: Basic.

MASTER DRILL

Set up multiple choice drills on any subject

Price: \$ 18.95

Compatible Systems: Kaypro II,4,10

MASTER DRILL is a utility specifically designed for the educational environment. With MASTER DRILL you can quickly and easily set up multiple choice drills on any subject you desire. All you do as the drill creator is respond to the prompts. The program will ask you for the question and its corresponding answer. Later, when that question is presented to the student, between two and nine multiple choice answers will be presented, one of which is correct. The incorrect answers are drawn at random from the answers to the other questions. Source: Basic. Manual included.

MICROCOMPUTER BOND PROGRAM

Helps evaluate bonds

No Warranty is made expressed or implied by Kaypro Corporation.

Dynacomp, Inc.

MICROCOMPUTER BOND PROGRAM

Price: \$ 59.95

Compatible Systems: Kaypro II,4,10

MICROCOMPUTER BOND PROGRAM is designed to help you evaluate bonds. It provides a quick and easy way to estimate the prices and yields of fixed income securities under a broad range of assumptions and estimates about the future. MBP provides: complete bond data entry, editing, listing and storage capabilities; a flexible analysis environment, including market interest levels and tax rates; bond yields before maturity, showing estimated price, total dividends, and gross yield; bond prices estimated over time, at various market interest rates, evaluated to either maturity or early call; bond valuations, showing current yield, and before and after tax yield to maturity. Source: Basic.

MICROCOMPUTER STOCK PROGRAM

Helps analyze stock prices

Price: \$ 59.95

Compatible Systems: Kaypro II,4,10

The MSP is designed to help analyze stock prices. It provides timing signals for stock purchases and sales. Buy and sell indicators are generated by means of a unique auto-regressive price trend analysis. MSP requires only weekly high, low, and close prices and the volume of shares to aid investment decisions. It has several features: generate buy/sell signals; print a volume/price/moving average chart on any 80-132 column printer; complete data maintenance facilities, including on-screen viewing and easy editing for adding, changing or deleting data. Source: Basic. Manual included.

MULTILINEAR REGRESSION

Advanced statistical package

Price: \$ 28.95 Compatible Systems: Kaypro II,4,10

This is the third program in the DYNACOMP statistics services. Whereas REGRESSION I & REGRESSION II (PARA-FIT) are designed for analyzing bivariate data, MLR is capable of treating multi-variate situations with no limit on the number of dimensions. The general form of the equation fitted will be $Y = a_1(X_1) + c_3(X_3) + \text{etc.}$ the variables are the X_i . The regressed coefficients are $a, b, c, \text{etc.}$ The functional forms, $f_1(X_1)$, may be virtually anything. MLR automatically offers a choice of nine mathematical forms, including the logarithmic and exponential as well as the simple default $f_1(X_1) = X_1$. MLR is supplied with a 16 page manual which carefully outlines program operations. Source: Basic.

OPTIONS ANALYSIS

Stock investment management

Price: \$ 99.95

Compatible Systems: Kaypro II,4,10

OPTIONS ANALYSIS provides one of the most complete analyses available for PUT and CALL prices as a function of both stock price and time-to-expiration based on the principal investment strategies which one might employ. The analyses present information on the profit potential both in dollars and in annualized percentages (where applicable) for any desired range of stock price and time-to-expiration. Source: Basic. Manual included.

PERSONAL BALANCE SHEET

Personal finance aid

Price: \$ 29.95

Compatible Systems: Kaypro II,4,10

PERSONAL BALANCE SHEET provides an easy way for you to create a statement of your financial position. Besides calculating your total assests (cash, accounts receivable, stocks, bonds, real property, etc) and liabilities, PBS includes debt/worth, current, and acid test ratios. You can use PBS to forecast changes in your net worth based on changes in your investments and liabilities. PBS is a well-designed, easy to use software package. It comes with a documentation package which offers step by step instructions, a sample data file, program notes and an annotated program listing (in BASIC).

PERSONAL FINANCE SYSTEM

Complete financial management package

Price: \$ 39.95 Compatible Systems: Kaypro II,4,10

The PERSONAL FINANCE SYSTEM (PFS) offers the user one of the most complete financial management packages available, allowing the individual or small businessman complete flexibility in maintaining all aspects of financial record-keeping. Depending on configuration, you will be able to store from 300 to 2,000 transactions on each disk. Records are easily entered into the master file and can be accessed by payee or by a user defined code. PFS will keep track of all tax deductible items, bank deposits, monthly charges, cash payments, etc. It will even automatically deduct any check fees if desired. Source: Basic. Manual included.

POKER PARTY

A tool for learning the subtleties of draw poker

Price: \$ 23.95 Compatible Systems: Kaypro II,4,10

If you enjoy draw poker, then this is the software package for you. POKER PARTY is better classified as a simulation than a game. As a simulation POKER PARTY is an excellent (and inexpensive) tool for learning the subtleties of draw poker. As a game, it is simply fascinating. POKER PARTY differs from most microcomputer poker games in the following ways. First the level of play engaged by the computer opponents on the whole is quite high. Second, it is not just a two-handed game, but rather seven-handed. The usual rules of draw poker are followed, including a maximum of three rounds of betting before the draw and at most three after. Aces may be used either high or low in straights. Source: Basic. Manual included.

No Warranty is made expressed or implied by Kaypro Corporation.

Dynacomp, Inc.

PORTFOLIO MANAGEMENT

Stock portfolio management aid

Price: \$ 69.95

Compatible Systems: Kaypro II,4,10

The PORTFOLIO MANAGEMENT package was written by a stock broker to help manage portfolios for individual customers. With this program, data files can be easily created and kept up to date. A variety of reports, attractively and professionally laid out, can be generated for clients. The user may define his/her own investment categories. PORTFOLIO MANAGEMENT is a top-quality professional tool which will not only provide you with conveniences but will also serve to enhance your appearance as an efficient and up-to-date advisor to your clients. Comes complete with a 30 page manual. Source: Basic.

MC/VISA/CHECK/PO

REGRESSION I

Regression curve fitting package

Price: \$ 23.95

Compatible Systems: Kaypro II,4,10

REGRESSION I is a complete and coordinated regression curve fitting package for the analysis of linear and non-linear, one-dimensional data. It is based on various subroutines and techniques presented in Volumes 1 and 2 of BASIC SCIENTIFIC SUBROUTINES. REGRESSION I provides many of the facilities available on large FORTRAN-speaking machines and more. However, unlike many of the FORTRAN equivalents, there is no confusion as to the input/output variable formats, and the software is very easy to use. In addition, the analysis is interactive, thereby permitting the user considerable freedom in experimenting with fitting functions and orders of approximation. 12 page user's manual included. Source: Basic.

No Warranty is made expressed or implied by Kaypro Corporation.

REGRESSION II (PARAFIT)

Parametric least squares regression program

Price: \$ 23.95

Compatible Systems: Kaypro II,4,10

PARAFIT is a parametric least squares regression program designed specifically for the determination of the non-linear coefficients in complicated mathematical expressions. This is to be contrasted with the linear polynomial coefficients calculated by REGRESSION I. PARAFIT was designed to be easy to use as well as effective, and is an excellent companion to REGRESSION I. PARAFIT is supplied with a comprehensive 14 page manual which fully describes the program's use.

ROOTS

Determines zeroes of polynomials with real coefficients

Price: \$ 19.95

Compatible Systems: Kaypro II,4,10

If you want to determine the zeroes of a polynomial having real coefficients, ROOTS is the program for the task. ROOTS employs a relatively little known algorithm described in computer mathematics literature several years ago. This algorithm iteratively seeks all the roots simultaneously. The convergence is cubic (and therefore rapid) and very stable, requiring no explicit initial guesses from the user. In addition to displaying the calculated solutions, the program also shows the results of substituting those values into the original polynomial. Source: Basic. Manual included.

SPACE EVACUATION

Space simulation game

Price: \$ 19.95

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

Dynacomp, Inc.

SPACE EVACUATION

How many people can you evacuate from Earth before the sun explodes? Your computer becomes the control console of a giant spaceship in this exciting simulation as you determine which worlds can be colonized, make those worlds habitable, and transport people through space. You have 500 years for your mission, but your ship is limited to the speed of light, and colonization takes time. Choosing the best travel routes and colonizing procedures can be critical. The goal is to save everyone. However, the highest recorded score is 97%. Can you do better? Source: Basic. Manual included.

SPACE LANES

Simulates the space transportation industry

Price: \$ 14.95 Compatible Systems: Kaypro II,4,10

SPACE LANES is a simple, but exciting, simulation of the economics of the space transportation industry. The object is to establish and expand space transportation companies in a competitive environment. The success of a particular company is measured by the extent of its space lanes. This success is reflected in the value of its stock. The player participates in this industry by helping in the formation of companies and the extension of the space lanes, and the financial rewards accrue from wise choices in the purchasing of stock.

STATE VARIABLES

Solve systems of ordinary differential equations

Price: \$ 19.95 Compatible Systems: Kaypro II,4,10

STATE VARIABLES is designed to solve systems of ordinary differential equations (up to ten) which include a forcing function. For example, a network of RLC elements subjected to a varying input voltage can be easily analyzed. You may choose five types of forcing functions: a constant, ramp, step, sine wave, or user-defined function. The program then solves the problem and both prints and plots the resulting solutions (including derivatives). Source: Basic. Manual Included.

STATTEST

Performs statistical tests of hypotheses

Price: \$ 33.95 Compatible Systems: Kaypro II,4,10

STATTEST performs statistical tests of hypotheses and includes t-tests, chi-square tests, and F-tests as well as simple regression and a random number generator. Data can be entered under program control or from tape or disk. Any external file which already contains data in the simple format required may also be used. Once the data is loaded, it may be edited by the program's own data manipulation routine. Data can be changed,

No Warranty is made expressed or implied by Kaypro Corporation.

costs are-provides you the information to control your cost-and enables you to evaluate your cost performance.
Source: BASIC. Operating manual included.

Source code included.

MANUFACTURING CONTROL SYSTEMS LABP

ELTECH labor reporting / performance system

Price: \$ 345.00

Compatible Systems: Kaypro II,4,10

The LABP gives you the ability to monitor and measure the efforts of your work force. You can identify and control your company's labor resources that are of critical importance in maintaining optimum operating performance and profitability. The LABP provides you the daily, weekly, and monthly information that you need to control your costs. You can trace each employee's work efforts, each department's performance, and all production job labor costs. In addition, you can monitor your indirect labor charges to your expense accounts and obtain weekly and monthly reports of these costs. Designed for manufacturing companies.
Source: BASIC. Operating manual included.

MANUFACTURING CONTROL SYSTEMS MRP

ELTECH material requirements planning control module

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

The MRP module provides a valuable scheduling and inventory control technique that can improve your purchasing and job scheduling patterns. With this module, you have the ability to reduce your overall inventory levels, therefore improving profitability and overall cash flow. The design of this system follows the same principles employed in much larger computer MRP systems. We utilize the three essential data banks required to drive a MRP system: the master schedule, the bill of materials processor, and the requirements planning information file. Designed for

MICROSTAT

Statistics for educational and industrial research

Price: \$ 395.00 Compatible Systems: Kaypro II,4,10

MICROSTAT is for research, educational and industrial work that involves applications using statistics. With MICROSTAT, the algorithms were selected specifically to reduce errors introduced by the use of large numbers used frequently in statistical calculations. Some highlights include: a data management subsystem for file creation, descriptive statistics, hypothesis tests, analysis of variance, scatterplot, etc..

REILEY

A real estate index and locator

Price: \$ 595.00 Compatible Systems: Kaypro II,4,10

The Electric Abacus introduces REILEY - a Real Estate Index and Locator - a system of BASIC language computer programs designed to assist real estate agencies in finding properties for customers. These interactive search and sort programs automatically match the home specifications of a prospective buyer with current MLS listings. No complicated codes or symbols are required to access information, nor is computer expertise necessary - it's easy and versatile.

Comparisons of mortgage terms, access detailed property descriptions, print complete amortization tables, estimate of monthly payment and affordable sale price are some of the features included. Source: Microsoft BASIC. Manual included.

BUILDING ENERGY ANALYSIS PROGRAM

Complete air system energy analysis

Price: \$ 695.00

Compatible Systems: Kaypro II,4,10

The program will calculate 24 hour loads for four typical days per month per year for a project with up to 1000 zones and 100 air systems. All common types of central plants and air handler systems may be simulated. The output includes monthly heating and cooling loads and costs for each air system as well as an economic analysis evaluating initial and annual costs. Source: CB80.

No Warranty is made expressed or implied by Kaypro Corporation.

BUILDING ENERGY ANALYSIS PROGRAM

Runs as a stand alone program or in conjunction with HVAC program.

P-FILE

Printer output to disk file utility

Price: \$ 129.00

Compatible Systems: Kaypro II,4,10

P-FILE is a printer output to file utility program that allows you to route printer output to a disk file. With P-FILE, applications programs that usually only print reports to your printer, can now print reports directly to disk. With P-FILE your application program doesn't have to have a printer and it can execute faster because it takes less time to print data to disk than it does to print on paper. Source: CB80.

PUBLIC DOMAIN SOFTWARE

to users. Types of programs range from simple games to sophisticated operating system software. Most languages are represented and some languages are included on the disks. Source is usually provided so that the user can modify the programs to suit his desires. Each disk contains a catalog of the files on the disk. Program abstracts are often included and most programs are commented.

Date released: 1/ 1/77 Last update: 1/ 1/83

TYPWTR

Turns a computer into a typewriter

Price: \$ 29.95 Compatible Systems: Kaypro II,4,10

TYPWTR makes it easy to handle simple typing jobs that are an overkill for most word processing software. Full word processing editing is available as the user types a line but nothing prints until the carriage return is pressed. The printer printhead may set to move as keys are pressed but this is only to show you where you are. This makes filling in forms easy. The data being typed may be saved to a file for use later. Also included is the ability set right and left margins as well as the ability to set tabs. Multiple margin tab lines may be used on one document. Source: MBASIC Compiled. Includes a manual.

The Prospector is designed to help make sales calls more productive. It is a completely interactive, on-line sales management data base with instantaneous record access and display. It supports sales efforts using personal sales calls, telemarketing, and direct mail advertising. Typical uses for The Prospector include maintenance of client lists, prospect lists, and supplier lists--subsets of which can be extracted at will. It is used to keep a tickler file of prospects to be contacted at specific future times and for storing various types of information about these prospects. Source: COBOL. Manual included.

FINANCIAL MANAGER

Complete farm management tool

Price: \$1450.00

Compatible Systems: Kaypro II,4,10

The Financial Manager program does not ask you to learn a new accounting system, instead it allows you to continue using your current accounting format. The names of income and expense categories, as well as crop and livestock commodities you produce are defined by you. Allows you to identify the income and expenses for each commodity according to where it was produced. Program allows for a variety of farm ownership arrangements - partnerships, corporations and individual owners. For tax purposes each needs to keep separate records and yet to fully analyze the farm, it is necessary to see several combinations of owners in the various reports. Source: Fortran.

PRACTICALC

Concrete estimating program

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

Program is ideal for estimating quantity of concrete, form work, pans, finishing, rubbing and patching, grading, coring and accessories. The program is divided into separate kinds of concrete work: beams and walls, columns, footings, pile caps, structural slabs, slab on grade and concrete stairs. Dimensional data is entered on take-off worksheets in the program which calculates data and forwards to a pricing summary sheet. Unit prices for material and labor are entered, along with

No Warranty is made expressed or implied by Kaypro Corporation.

PRACTICALC

accessory and subcontractor costs, and user gets automatic extensions for material and labor costs for each kind of work. Source: M-Basic. Manual with practical exercises included.

Date released: 5/ 1/83

PRACTICALC BID REVISION

Automatic bid revision program

Price: \$ 250.00 Compatible Systems: Kaypro II,4,10

Designed to aid commercial estimators and contractors in the bidding process. This program generates a variety of bid sheets, on which a contractor enters bidder names, bid items (such as plumbing, electrical work, heating, etc.) and the amount that each bidder bids. The program provides 12 pages for single items only, where all bidders are bidding on only one item. These are totaled and forwarded to a Summary, where the total for all pages appears. Fourteen bid sheets are provided by the program for bids on double and triple items. For example, there might be three items bid on, with some bidders bidding on only one item and others bidding on a combination of two or all three items. Source: M-Basic. Manual included.

Date released: 5/ 1/83

PRACTICALC COST CONTROL

Job cost control program

Price: \$ 975.00 Compatible Systems: Kaypro II,4,10

Program provides up to 533 cost codes and handles up to 200 jobs at once. Included in the program are employee pay records, daily time sheets (for daily labor cost records), daily equipment time sheets. Information from daily time sheet flows to a Weekly Labor Cost Report. This is of vital importance to the contractor, because labor is the cost over which he has most direct control. The program maintains a Job Cost Journal for each job which gives all costs including subcontractor, material

No Warranty is made expressed or implied by Kaypro Corporation.

Frank R. Walker Company

PRACTICALC COST CONTROL

and miscellaneous costs. There is also a Job Cost Ledger for costs under each cost code. Source: M-Basic. Manual with sample data included. Kaypro 10: 1,000 files maximum.

Date released: 11/ 1/83

PRACTICALC MASONRY

Masonry estimating program

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

The program will estimate masonry work for almost any size and shape of modular clay brick and concrete block plus the required mortar for unit masonry. It handles all miscellaneous items such as joint reinforcement, block or cavity fill, wall ties, etc. The program provides a division for unit masonry and a separate division for miscellaneous work. Take-off worksheets are called up and dimensional data entered. The dimensional data is calculated and number of masonry units needed is determined by the program. Source: M-Basic. Kaypro 10: 1,000 files maximum. Manual included.

Date released: 9/ 1/83

PRACTICALC RESIDENTIAL CARPENTRY

Residential carpentry estimating program

Price: \$ 595.00

Compatible Systems: Kaypro II,4,10

Carpentry estimating for production and custom residential construction. The program is designed to estimate material quantities and prices as well as labor costs on rough and finish carpentry, millwork, drywall, insulation, siding and roofing. User follows a series of screen prompts to enter all material specifications and dimensions from work plans into the computer. The program stores unit pricing information. All material and labor costs are extended and summarized automatically. The end product is a printed list with all quantity totals, unit prices, and total labor and material costs. Source: M-Basic. Manual included.

No Warranty is made expressed or implied by Kaypro Corporation.

PRACTICALC RESIDENTIAL CARPENTRY

Kaypro 10: 1,000 files maximum.

Date released: 11/ 1/83

PRATICALC HOMEBUILDER

Homebuilder's estimating program

Price: \$ 695.00 Compatible Systems: Kaypro II,4,10

Designed to take-off and price labor and material on a complete production or custom home. Develops an estimate for site preparation, concrete work, rough & finish carpentry, millwork, drywall, insulation, siding, roofing, etc. In addition, the program handles all electrical work, appliances, flooring material, heating and plumbing, cabinets, etc. Produces a list of all items with quantity totals, unit prices, and totals for labor and material costs. Source: M-Basic.

ALERT

A legal calendar and docket control system

Price: \$ 500.00 Compatible Systems: Kaypro 4,10

Alert manages attorney schedules and critical dates or events. The package maintains schedules for all attorneys in a firm and produces a daily activity calendar for each, as well as a firm schedule for any selective period. Critical events such as statutes of limitations, court dates, hearings, and filing deadlines are easily managed by the system and automatic reminders may be optionally printed for any event. Alert greatly reduces the possibility of missed filing dates, appointments, or court appearances, and schedule conflicts, and additionally, may reduce a firm's malpractice insurance rates. Includes an operator's manual.

ANALYZER

Performs the financial calculations related of law

Price: \$ 200.00 Compatible Systems: Kaypro 4,10

The Analyzer is a powerful tool for performing the financial calculations related to many types of law. The package includes complex bond calculations, lump sum interests calculations, loan amortizations with balloons, future value annuities (accruals) and dollar prorations over dated periods. Additionally, amortization schedules may be printed for clients. The Analyzer is especially helpful in areas of real estate closings, inter-corporate transactions and collections work. Includes an operator's manual.

Mortgage Acceleration lets the user compare mortgage pay-out with two payment schedules: current payment and prepayment. It produces ledgers on each schedule with a summary sheet and comes ready-to-use with no programming necessary. Capacity: Policy Information Files - 220K, Auto Rating - 330K, can run on drives with only 120K. Includes a sales manual.

Source code included.

No Warranty is made expressed or implied by Kaypro Corporation.

Insurance Sales Systems

PIF POLICY INFORMATION FILES

Database management program for insurance agents

Price: \$ 750.00 Compatible Systems: Kaypro II,4,10

PIF is an easy-to-use database management program written by an insurance agent for insurance agents. This menu-driven program merges with word processing. The thorough manuals are short and easy to understand. PIF uses only 11 commands to run the entire program, has 26 different search methods built-in, and stores and retrieves service fact-finding, and marketing information. It provides easy access to client files for sales criteria or any combination of information. Capacity: Policy Information Files - 220K, Auto Rating - 330K, can run on drives with only 120K.

Date released: 1/ 1/79

PROPOSAL SOFTWARE

Integrated financial planning package

Price: \$ 750.00 Compatible Systems: Kaypro II,4,10

Contains 9 different financial planning type programs. Total Needs Analysis, IRA (Individual Retirement Accounts), HR-10 (Keogh), Loan Amortization and Depreciation, Annuity vs. Savings, and Mortgage Acceleration, and Financial Goals Proposals. Capacity: Policy Information Files - 220K, Auto Rating - 330K, can run on drives with only 120K. Includes a sales manual.

TOTAL NEEDS ANALYSIS

Life insurance sales aid

Price: \$ 400.00 Compatible Systems: Kaypro II,4,10

Total Needs Analysis produces a proposal used by insurance agents to help sell life insurance. It is specifically designed to create a need for life insurance based on the objectives of the bread winner to provide for his/her family in the event of an untimely death. TNA is a ready-to-use program in insurance language

No Warranty is made expressed or implied by Kaypro Corporation.

C' (C-PRIME)

A powerful general-purpose programming language

Price: \$ 500.00

Compatible Systems: Kaypro II,4,10

C' supports structured programming features, data structures, an extensive set of operators, and easy-to-use assembler-like features. C' is an ideal development tool--all the benefits of high-level languages, and yet yielding tight and fast code. C' supports most C language features, including two-dimensional arrays, structures, recursion, pointers, unions, while, do, for, switch, break, continue, go to, return, labeled statement, signals and much more. C' also comes with a powerful library which implements most of the UNIX 7 routines. The system is compatible with 8080 and Z-80 microprocessors, CP/M. Includes documentation.

MDBS III

A database management system

Price: \$2200.00

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

MDBS III

MDBS III allows the user to define his data base structure in the most natural and logical way, without being forced to employ redundancy or artificial constructs to represent data relationships. Each relationship has a descriptive name. This allows the direct representation of one-to-many, many-to-many, one-to-one, forked and recursive relationships, something which even mainframe DBMS's do not yet offer.

Warranty/Terms:

PRICE RANGE FROM \$2200 TO \$20,000

SCREEN MASTER

A powerful general purpose, interactive I/O manager

Price: \$ 700.00

Compatible Systems: Kaypro II,4,10

SCREEN MASTER is a powerful, general purpose interactive input/output management system that can be used in building application systems. It provides both program and terminal independence. Application developers can define screens that will appear to end users of an application. These screens can be used for both data display and data entry. Host languages: C, Basic, Pascal, and PL/1.

Micro Manufacturing Systems

FRP-3

Financial Resource Planning (FRP) is a valuable tool which the manager can use to forecast, budget and control cash flow. FRP is capable of projecting purchase expenditures, labor expenditures and overhead expenditures for periods ranging from one month to over two years. Reports are also available that calculate cash requirements for currently open purchase orders and cash committed from open customer orders. Both of these reports are available by planning period or bimonthly.

MCS-3

Inventory control system

Price: \$2500.00

Compatible Systems: Kaypro 10

The MCS-3 Manufacturing Control System is a completely integrated inventory control, material requirements planning system. MCS-3 is written in Ryan McFarland COBOL and will run on most micro computers and operating systems including CPM, MPM, UNIX, OASIS & TRSDOS. Consist of 12 separate modules which can be purchased as a complete package or individually as required. Includes inventory control, bill of material, material requirements planning, capacity planning, shop floor control, job costing, customer order entry, financial resource planning, accounts payable, accounts receivable, general ledger, and payroll.

MCS-3 MRP-3

Material requirements planning

Price: \$ 250.00

Compatible Systems: Kaypro 10

This is both a scheduling and inventory control technique. MRP consists of a series of steps which lead to improved purchasing and scheduling patterns and the reduction of overall inventory levels, therefore improving profitability and overall cash flow. This is done in two ways. First, by determining the need for finished products in future periods, MRP schedules both

No Warranty is made expressed or implied by Kaypro Corporation.

Micro Manufacturing Systems

MCS-3 MRP-3

orders and deliveries of components to meet that schedule. Second, by using lead times and economic order quantities properly, allows for the reduction of inventories. The purchasing agent or inventory planner can look two years into the future to see projected inventory levels which are calculated from current inventory levels, forecasted sales and purchase commitments.

FORTH-79

Implementation of the FORTH compiler language

Price: \$ 90.00

Compatible Systems: Kaypro II,4,10

FORTH-79 is a structured language that's ideally suited for systems and application programming on a microprocessor system. It has many advantages for applications where execution speed is important. Programs usually run several times faster than in BASIC and are very compact. FORTH provides a friendly interactive environment for writing and testing programs. It also allows rapid program development because the interpreter, compiler, assembler, editor, and operating system are all co-resident. The extensibility of FORTH allows you to tailor the language to your own needs. Includes a 200-page tutorial and reference manual.

PROJECT COST MANAGEMENT

Provides 33 reports on engineering cost control

Price: \$ 70.00

Compatible Systems: Kaypro II,4,10

This program is designed to meet the specific needs of engineering cost control. It provides 33 different reports immediately upon entry of time sheet data, so that projects are never over budget due to lack of information. The user specifies the job numbers, employee classifications, division or departments names, and overhead account designations. The internal capacity of "Jobfiles" includes up to 999 employees, 99 tasks per project, 99 expense items per task and 99 labor classifications. The number of projects limited only by amount of disk storage -multiple data disks may be used to maintain an unlimited number of projects.

MCC ACCOUNTS PAYABLE

An accounts payable software package

Price: \$ 795.00

Compatible Systems: Kaypro 4,10

Our Accounts Payable package is fast and easy. All you have to do is key in your current vendors' names and addresses. You enter unpaid invoices--or vouchers--by number, date, due date, prompt payment discount (if allowed) and amount. You can examine cash flow analyses by month, cash requirement projections by week, or job if you have MCC's Job Cost Accounting package. Vouchers can be entered as prepaids (if you've already written the check) or unpaids. Accounts Payable automatically creates an AP journal if used with General Ledger and will work without General Ledger for non-

No Warranty is made expressed or implied by Kaypro Corporation.

MCC ACCOUNTS PAYABLE

accounting functions.

Source: Microsoft FORTRAN. Manual included.

MCC ACCOUNTS RECEIVABLE

An accounts receivable software package

Price: \$1195.00

Compatible Systems: Kaypro 4,10

Our Accounts Receivable package works with either an open-item or balance-forward accounting system to automatically create accrual, sales and cash receipt journals for posting to General Ledger. The package interfaces directly with our Inventory Management package to automatically receive item pricing and costing, as well as shipping and back order information. When invoicing directly, the system will also pull up item descriptions from the inventory file.

Source: Microsoft FORTRAN. Manual included.

MCC BOMP

MCC software's bill of materials processor

Price: \$ 995.00

Compatible Systems: Kaypro 4,10

BOMP provides you with the ability to input and maintain standard lists of material for generating inventory orders (sales or manufacturing). Inventory (stock) and Labor (in terms of hours and costs) requirements are automatically generated. The primary advantage of BOMP utilization is the Materials Requirements Planning Report, which provides the following important information: Quantity and cost of each part required. Cost to order each part. Bills of material using the part. Total cost to build (in stock and ordered). Total labor hours required by activity code. Total labor cost required by activity code.

Source: Microsoft FORTRAN. Manual included.

No Warranty is made expressed or implied by Kaypro Corporation.

Midwest Computer Center Co.

MCC BUDGETING/ESTIMATING

Monitors actual vs. estimated job costs

Price: \$ 795.00

Compatible Systems: Kaypro 4,10

Interfaced with other MCC Software packages, Job Estimating/Budgeting provides complete management reporting by dollars and units, projecting percent complete and profitability by operation. Estimates can be created for both labor and materials. Summary reports available as well as details--calling out areas in need of management attention. Budget reports pinpointing how a budget is not being met.

Source: Microsoft FORTRAN. Manual included.

MCC FINANCIAL ANALYSIS

Manages and controls your financial information

Price: \$ 495.00

Compatible Systems: Kaypro 4,10

This package was developed in direct response to requests from our customers for an efficient, accurate money management tool. It is specifically designed to work in tandem with our General Ledger program to provide month-by-month and year-to-date reports of your company's performance against budget. Both budget and historical information are stored on the General Ledger chart of accounts diskette. Financial Analysis solves the problem of maintaining your fixed asset records by storing up to 1,000 assets per diskette.

Source: Microsoft FORTRAN. Manuals included.

MCC GENERAL LEDGER

Flexible, master accounting program

Price: \$ 795.00

Compatible Systems: Kaypro 4,10

The journal driven double entry system provides for full account number and balance verification at entry time. As it checks information being entered through the journals, it insures that you will never make a wrong entry to a non-existing account. Also, your general ledger will never be thrown out of balance. All

No Warranty is made expressed or implied by Kaypro Corporation.

MCC GENERAL LEDGER

entries are constantly monitored for validity! Each MCC Software package includes manuals for operation, installation and reference.
Source: Microsoft FORTRAN.

MCC INVENTORY

Improves customer service and internal control

Price: \$1495.00

Compatible Systems: Kaypro 4,10

Inventory Management provides perpetual maintenance of your inventory with on-hand, reserved and available quantities. It supports a wide range of costing methods to ensure compatibility with most in-place systems. Usage records are also captured by the system. Stock status reports can be printed by job or part number range--even limited to those items you need to order--with economic order quantities shown. The system also displays the most current P.O. and date due for shipment. Backorders are managed and customer updates on backordered items and shipping information. With our General Ledger and Accounts Receivable software, inventory becomes a complete, one-entry system.
Source: Microsoft Fortran.

MCC JOB COSTING

Accumulates all incomes and costs through G/L journals

Price: \$ 795.00

Compatible Systems: Kaypro 4,10

JOB COSTING: A journal-driven program that accumulates all incomes and costs through the General Ledger journals. Provides information by account, while Job Costing provides it by job. Job Costing is done automatically as a byproduct of processing your payroll, accounts receivable, and inventory. It is the cost accounting interface to General Ledger. It sets up a job ledger to accumulate all incomes, materials and labor costs against a particular job, allowing for up to 364 active jobs at any one time.
Source: Microsoft FORTRAN. Manual included.

No Warranty is made expressed or implied by Kaypro Corporation.

Midwest Computer Center Co.

MCC NAMS

Name and address management system

Price: \$ 349.00

Compatible Systems: Kaypro 4,10

Developed specifically as a convenience for MCC Software users, NAMS stores up 1,500 names and addresses per single-density diskette. Multiple diskettes are supported. Once entered on a data diskette, name and address data can be sorted by any supported variable, then printed on a standard listing, on 2-up gum labels or anywhere within a use-created form letter. NAMS also enables you to merge names and addresses from several different NAMS data diskettes to generate any unique mailing you may require. The program can be interfaced with Wordstar and is already designed to support the projected 9-digit Zip Codes.

MCC PAYROLL

Complete payroll with labor distribution

Price: \$1195.00

Compatible Systems: Kaypro 4,10

For salaried employees, you select the payroll period, and the system does the rest--computing taxes, figuring the deductions and writing the check. The package allows for up to 23 active unions at any one time. You can also access detailed or summary workers' compensation reports by job at the touch of a button. MCC Software represents a full line of integrated computer applications for business and professional organizations. Each MCC Software package includes a full set of plain English manuals for operation, installation, and reference. Source: Microsoft FORTRAN.

MCC TRAMS

A time recording and management system

No Warranty is made expressed or implied by Kaypro Corporation.

MCC TRAMS

Price: \$2495.00

Compatible Systems: Kaypro 4,10

When used in tandem with MCC Software's General Ledger program, TRAMS automatically creates the accounting transactions associated with billing and cash receipts. TRAMS not only simplifies the processes of recording time and generating billing, but also analyzes the profitability and productivity of important aspects of your organization, while you can tailor the information to your specific needs. Suited for use by engineering firms, architects, accounting firms, lawyers and consultants of all kinds.

ACCOUNTS RECEIVABLE

Bytesmith Software's Accounts Receivable

Price: \$ 495.00

Compatible Systems: Kaypro 10

The accounts receivable system is an open item system retaining all invoices in the system until paid. The system allows partial payments and full account recap of all outstanding invoices, debit memos, and credit memos. It also allows the user the option of late payment interest charges. Tax codes and rates are defined by the user as well as time period calculation of interest rates. The user may define a default service percentage rate or individual service rates per customer. Accounts exceeding a defined credit limit are flagged as invoices and are processed. Includes a full concurrent manual.

Date released: 8/ 1/83

ESCROW

Bytesmith Software's Escrow

Price: \$ 295.00

Compatible Systems: Kaypro 4,10

This program is used to keep a record of escrow payments, including principal and interest totals. Principal and interest figures are calculated according to payment date. Therefore, the percentage of principal applied and interest charges depends on the time of payment. Within the program, descriptions of the escrow account, customer personal data, and payment schedules are kept and updated. The system is open for entry throughout the year, so that payments made can be updated for the appropriate period. This program also calculates and records salespersons' commission

No Warranty is made expressed or implied by Kaypro Corporation.

ESCROW

percentages and dollar figures. The system is password protected. Includes a full concurrent manual.

Date released: 8/ 1/83

GENERAL LEDGER

CPA and single name versions from Bytesmith

Price: \$ 795.00 Compatible Systems: Kaypro II,4,10

The books are left open for the entire year, allowing entry of purchases, sales, and expenses in the actual accounting period of occurrence. Financial statements can be run at any time. Detail data is not destroyed as a period is closed out, making it easy to provide accountants or auditors with all detailed data for the complete year just past. Includes a 150 page manual.

Warranty/Terms:

CPA VERSION

JOB COSTING

Bytesmith Software's Job Costing

Price: \$1895.00 Compatible Systems: Kaypro 10

Because of the flexibility created within the Phase Master, the Job Costing package is easily adaptable for architects, contractors, attorneys, and so forth. When interfaced with Time Accounting and General Ledger, the system will track current as well as life to date income and expenses. It also calculates profit and loss by phase or total project. It provides the ability to evaluate performance of employees, supervisors and outside consultants, and to evaluate profitability by market classifications, and clients. The systems calculates the percentage of expenditure against budget estimates, and includes a percentage of completion for construction loan draws. Includes a 130 page manual.

Date released: 9/ 1/83

No Warranty is made expressed or implied by Kaypro Corporation.

National Datatec Corporation

PAYROLL

Bytesmith Software's Payroll

Price: \$ 495.00

Compatible Systems: Kaypro II,4,10

Payroll may be fully integrated with the General Ledger module and Job Costing systems. It does require the Time Accounting system for initial calculation of hourly paid employee pay records. Time Accounting is not required for salaried employees if the Job Costing system is not utilized. All master files are updated when payroll checks are written. A payroll summary file is maintained for auditing reviews or special inquiries. The file contains one record for each employee paid per pay period. Manual checks allowed. Includes a 115 page manual.

Date released: 9 / 1/83

TIME ACCOUNTING

Bytesmith Software's time accounting package

Price: \$ 295.00

Compatible Systems: Kaypro II,4,10

Fully integrated with Payroll and Job Costing systems. Each employee is assigned a primary classification for billable charge out rate for normal labor. The rate classification may be overridden for any time entry to allow flexibility of tasking other than primary assignments. The Time Accounting system maintains year to date billable and year to date nonbillable time for each employee. The system also tracks sick time, vacation time, and other nonbillable time. Included in the cost factor is the option for a percentage rate per each employee which allows overhead expenses for individual fringe benefits. Billable rates may be overridden by either a percentage rate or a fixed amount for any time entry. Includes a 96 page manual.

Date released: 9/ 1/83

RHESUS-ERASED-FILE RECOVERY SYSTEM

Recovers accidentally or mistakenly erased files

Price: \$ 65.00 Compatible Systems: Kaypro II,4,10

Rhesus recovers erased files that have not been overwritten by subsequent disk operations. It works with CP/M 2.0 - 2.2 systems, including those with hard disks, and is intended for use by non-programmers and those unfamiliar with the inner workings of CP/M. Some of its features are directory and undirectory listings, maps of recover alternatives, automatic and manual recovery procedures, file dumps in hex and ASCII, file renaming, HELP screens, and error messages in plain English. Most files can be recovered automatically by the use of a single command. Can recover an erased file up to 8-megabytes in length.

DOCUMENTOR

Computer assisted writing document database manager

Price: \$ 195.00 Compatible Systems: Kaypro II,4,10

It's used to synchronize 1stDraft outlines when changes are made in the document files by directly analyzing the document and updating the 1stDraft outline.

Documentor is also used to convert a document into a standard template that can be re-used. Documentor is also user friendly, but is batch oriented. Documentor does not interact with the user after it has the task request and the file on which to perform the task.

Required SW: FIRST DRAFT \$ 195.00

FIRST DRAFT

Computer assisted writing spreadsheet

No Warranty is made expressed or implied by Kaypro Corporation.

PromptDoc, Inc.

FIRST DRAFT

Price: \$ 195.00

Compatible Systems: Kaypro II,4,10

First Draft is the tool that provides outline manipulation, document assembly from standard templates, document status tracking, and final document assembly. This product uses a standard, screen oriented interface that is consistent across all functions. It is fundamentally a user friendly design, and where it is a bit awkward it is consistently awkward. There are few surprises in using this package, it never does something obscure and usually informs the user of what it is up to, very nice when it is taking one or two minutes to perform a task. This is the most used of the two programs, and it is designed to support interactive thinking.

ACCOUNTMASTER 8/16 A/R

Accounts Receivable module from SBSG

Price: \$ 450.00 Compatible Systems: Kaypro II,4,10

This program will be a tremendous asset in maximizing cash flow especially during these times of double digit interest rates. It will help you increase credit sales to your best customers while allowing you to reduce your bad debt write offs. Credit decisions can be made

No Warranty is made expressed or implied by Kaypro Corporation.

SBSG, Inc.

ACCOUNTMASTER 8/16 A/R

based upon current and accurate information. The system produces four important management reports including open and closed items, invoices not yet billed, and aging. Of course, the module also generates your customers' statements. When coordinated with SBSG G/L, the A/R module will perform applicable posting activities. Since the product is user configurable, you can implement its use to meet your business requirements.

ACCOUNTMASTER 8/16 ACCOUNTS PAYABLE

Accounts Payable module from SBSG

Price: \$ 450.00

Compatible Systems: Kaypro II,4,10

This program is a comprehensive and valuable management tool. Besides storing data regarding purchases from your suppliers, it helps you manage your important cash resources. This system is invoice oriented and accurately tracks open and closed items, aging, historical vendor activity, and all associated expenses based upon data from your suppliers' invoices. Each invoice can be disbursed to up to five separate G/L accounts. Additionally, the system can print checks for vendor payment based upon a variety of arguments. The A/P module is user configurable to meet your unique business requirements. Like other modules, it can be used standalone or as part of an integrated system.

ACCOUNTMASTER 8/16 GENERAL LEDGER

General Ledger module from SBSG

Price: \$ 450.00

Compatible Systems: Kaypro II,4,10

This program is a double entry system, based on the accrual method of accounting. It consolidates all financial data from other accounting sources within your organization. Within minutes, you can get a complete overview of your business operation and performance, either by company or by department. There is tremendous flexibility in the design of a charts of

No Warranty is made expressed or implied by Kaypro Corporation.

ACCOUNTMASTER 8/16 GENERAL LEDGER

accounts. You can select your own account numbers, account descriptions, and report formats based upon your own unique needs. Accumulated Postings report assures data integrity. A/R, O/E, A/P, and Payroll modules will post directly to the G/L module. Additional modules can be added at any time with minimal disruption.

ACCOUNTMASTER 8/16 INVENTORY

Inventory control module from SBSG

Price: \$ 450.00 Compatible Systems: Kaypro II,4,10

This program is designed to meet the specific needs of retail and wholesale operations. All information is easily accessible and reportable to facilitate sound inventory control practices. Status reports and minimum reorder reports will help to reduce the potential hazard of overstocking which results in cash flow problems. Sales people always have current price lists at their fingertips. Sales and commission reports track product activity. Coordination to other modules supports an intermodular information exchange. Part records can designate an A/P vendor by number. Data entered from O/E impacts Inventory: on hand values, transaction file, period sales, and commission calculations.

ACCOUNTMASTER 8/16 ORDER ENTRY

Order Entry module from SBSG

Price: \$ 450.00 Compatible Systems: Kaypro II,4,10

This program is designed to print detail of customer purchases on invoice forms and update totals into A/R as either open or closed A/R invoices. Each line item can be declared taxable or not taxable. Each invoice can be disbursed to as many as five G/L sales accounts, as well as to A/R, sales tax receivable, shipping, and cash. When coordinated to G/L, updating totals impact applicable accounts as current or suspended. This

No Warranty is made expressed or implied by Kaypro Corporation.

SBSG, Inc.

ACCOUNTMASTER 8/16 ORDER ENTRY

module supplements A/R and can't be run standalone. You may coordinate it with Inventory; in which case, you input the inventory number and the computer displays description and retail price. Price can be overridden via discounting by percent or via directly changing price on this particular invoice.

ACCOUNTMASTER 8/16 PAYROLL

Payroll module from SBSG

Price: \$ 450.00

Compatible Systems: Kaypro II,4,10

This program is one of the most complete payroll packages available on the market for small business microcomputer use. Performance, flexibility, and utility have been carefully designed into the product. All manual functions have been automated. The module will promptly and accurately pay your employees, produce documents required by the federal and state agencies, and create reports for management use. And since it is user configurable, SBSG Payroll will allow you to run your system your way. When coordinated with SBSG GL, the Payroll module will perform applicable postings to as many as twelve different GL liability and expense accounts as well as posting to cash.

HMA

How much can you afford

Price: \$ 64.95

Compatible Systems: Kaypro II,4,10

HMA allows you to help the buyer who knows how much he/she can afford on a monthly basis but has no idea what price range of homes he/she should search. The price range varies according to loan periods, down payments, and interest rates. By modifying these variables you can see how this will affect the amount a buyer can afford (i.e bigger down payment can add up to a substantial saving in monthly payments...)

CREATED PER FILE

Date released: 1/ 1/83 Last update: 7/14/83

LOAN PLAN

Worksheets for loan analysis and planning

Price: \$ 99.95

Compatible Systems: Kaypro II,4,10

LOAN PLAN allows you to enter a customer's desired loan amount and work on a "what if" basis by varying the interest rates and the loan period to obtain different monthly payment amounts. This program helps the customer find the most suitable loan for his/her particular house choice. This program also does an amortization of a loan, breakdown of principle and interest for any year or year period in the loan. This feature is especially popular at tax time.

PROGRAM MAP BASIC

Price: \$ 150.00

Compatible Systems: Kaypro II,4,10

Accurately 'debug' modify, convert and/or document Microsoft BASIC programs in a minimum amount of time with PROGRAM MAP. The PROGRAM MAP cross reference utility produces alphabetical lists of a program's variables, commands, and functions, line numbers referenced and constants. It is fast and easy to use and runs directly under CP/M. Source: Machine Code.

Date released: 06/01/78 Last update: 07/01/82

SOFTCOM

Telecommunications utility (intelligent terminal also)

Price: \$ 150.00

Compatible Systems: Kaypro II,4,10

SOFTCOM is a CP/M based communications utility which can be used as an intelligent terminal program and as a CP/M to CP/M file transfer utility. Intelligent terminal mode supports 300/1200 baud modems and full or half duplex. Data sent to the host computer can be entered at the terminal or it can be send directly from disk files which were prepared 'off line'. Data received from the host can be saved in disk files and/or printed. File transfers with SOFTCOM greatly reduce storage, line and CPU charges. Source: Machine Language.

TOOLWORKS C/80 2.0

C/80 compiler

Price: \$ 49.95

Compatible Systems: Kaypro II,4,10

An outstanding value, the Toolworks C/80 compiler is both a professional programming tool and a great way to get started with this popular language. C/80 supports full C structures, pointers and arrays, all storage classes, static data initialization, and inline assembler. Compiles all C arithmetic and logical operators, and all control statements, including while, if-then-else, switch-case, and goto.

Warranty/Terms:

USUAL MONEY BACK GUARANTEE

TOOLWORKS LISP/80

Artificial intelligence language

Price: \$ 39.95

Compatible Systems: Kaypro II,4,10

Experiment with the artificial intelligence language to which BYTE magazine devoted its August 1979 issue. Based on the INTERLISP dialect, Toolworks LISP/80 offers over 75 built-in functions, including large machine features like trace, file I/O, and string operations. Comes with a simple editor, file librarian and formatted expression print routine, all written in

No Warranty is made expressed or implied by Kaypro Corporation.

TOOLWORKS LISP/80

LISP, and a 36-page manual.

UVMAC
Macro assemblers

Price: \$ 29.95 Compatible Systems: Kaypro II,4,10

UVMAC gives the assembly language programmer extra conveniences at an affordable price. Choose the Z80 version and use Zilog mnemonics, or the 8080 version which accepts source files similar to ASM. Each provides macro capabilities, plus source file inclusion so you can build libraries of subroutines, macros, or symbol definitions. Produces absolute (COM or ABS) files directly with no need for intermediate file or load.

PROTRAN

A translator writing system

Price: \$ 900.00

Compatible Systems: Kaypro II,4,10

PROTRAN is a general-purpose translator that takes the description of two languages - the language to be translated from, and the language to be translated into. These two descriptions are written in a powerful but easy to learn, meta-language (called METAL). Given descriptions on METAL, PROTRAN configures itself to translate between numerous dialects of COBOL; from BASIC to FORTRAN; between assembler languages; as the basis for standard compilers. Designed for program conversion, compiler writing, and macro generators. Source: FORTRAN. Tutorial and reference manual included.

SUPERFILE SYSTEM
Database manager

Price: \$ 485.00 Compatible Systems: Kaypro II,4,10

Superfile is a new, British made, software package for storing information on microcomputers. Superfile makes it easy to store, look up and alter any sort of information - names and addresses, stock list, houses for sale, bibliographies. Superfile has two supporting packages, Superforms and Supertab. They make database management easy because you can quickly design your own equivalents of paper forms on the computer screen with Superforms and use them to enter, alter and retrieve all sorts of useful information. You can also design your own Tabular Reports for printing sorted lists of information, with totals and sub-totals using Supertab. Capacity: 8 bit-8MB 16 bit -limit Source: 8 bit-Z80, 16 bit-C. Supplied on 2-3 disks. Manual included.

ANALIZA II

An interactive psychiatrist/patient type program

Price: \$ 50.00

Compatible Systems: Kaypro II,4,10

Analiza II is an expanded and "smarter" version of the famous "ELIZA" program. The computer imitates a psychiatrist and interactively communicates with the user in a questions and answers fashion. Analiza II can prompt new subjects if the conversation is repetitious or dead-ended, and keeps a list of subjects in memory to draw upon. User subjects can be stored on disk so that sessions can be continued day to day. Analiza II uses sophisticated "cracking" algorithms to analyze user responses and search for key words in order to construct a reply. Source: BASIC. Supplied on 5 1/4" floppy diskette. Includes a user manual.

Source code available.

Warranty/Terms:

DIAGNOSTICS II

A System Diagnostics

Price: \$ 125.00

Compatible Systems: Kaypro II

Diagnostics II checks five areas of the computer system to pinpoint hardware problems. The five areas checked are: memory, CPU, disk, terminal, and printer. All tests are "submit-"able and may be logged to disk for later review. A QUICK TEST checks for major problems in the memory, CPU, and disk drives in less than 4 minutes. The MEMORY TEST allows every byte of user memory to be tested, and summarizes errors by bit as well as address. The CPU test executes all single instruction and many multiple instruction sequences, and then checks CPU registers to see that proper registers were changed. Source: C and Assembler. Supplied on 5 1/4" floppy diskette. Includes a user's manual.

Source code available.

No Warranty is made expressed or implied by Kaypro Corporation.

DISK DOCTOR

Recovers crashed diskettes automatically

Price: \$ 100.00

Compatible Systems: Kaypro II,4,10

Disk Doctor can recover bad disks or accidentally erased files, and doesn't require the user to have knowledge of CP/M file structure. Disk Doctor is comprised of five wards, each performing a specific recovery operation. Ward A verifies disks and locks out bad sectors without touching the remaining good files. Ward B copies whatever can be read from a "crashed" file and places it in a good file under user control. Ward C copies disks without stopping for bad sectors, replacing the bad sectors with spaces. Ward D recovers accidentally erased files. Ward E displays a directory of recoverable erased files. Source: Assembly. Supplied on 5 1/4" floppy diskette. Includes a user manual.

Source code available.

Warranty/Terms:

SCRATCHPAD

A Spreadsheet

Price: \$ 295.00

Compatible Systems: Kaypro II,4,10

ScratchPad is a state-of-the-art spreadsheet containing many advanced features not found on other systems. Every cell on the spreadsheet can be used, and the matrix dimensions are flexible up to 999 rows or 999 columns to exactly fit your applications needs. Scratch Pad features virtual memory, which allows disk space to be used as backup for RAM. The exclusive window splitting feature lets you split the screen as many times as you like for title-locking and greater flexibility. The consolidation program combines similar values from different spreadsheets into a new "master" spreadsheet which contains either the sum or the average of the others. Source: C. Supplied on 5 1/4" diskette. Includes a user manual.

STAR JUMP

Interstellar conflict game

Price: \$ 60.00

Compatible Systems: Kaypro II,4,10

StarJump is a real time game of interstellar conflict for one or more players. Guiding one of 12 different ship types, each captain must face the dangers of marauding enemy starships, tenacious planetary defenses, and deadly space storms in his quest to conquer worlds. Four perennially hostile races make up the StarJump playing area and each desires to take over the rest. Strategic victories of this sort may take many hours of playing time, so we have provided the capability of "saving the universe" for resumed play at another time. Players can even create their own "universe" with stars, planets, and portals of their own design. Source: C. Supplied on 5 1/4" disk. Includes a user manual.

Source code available.

Warranty/Terms:

30 DAY REPLACEMENT OF DEFECTIVE MEDIA

BILL OF MATERIALS

Create part records for all bought & manufactured items

Call/See Terms for Price Compatible Systems: Kaypro 10

Programs enables the user to create Part Records for all bought and manufactured items, record how parts are put together to form components, sub-assemblies, and products. The data created is used for Automatic Material Cost Roll-Up. BoM forms the main data base for other modules controlling Stocks, Requirements, Orders, and Costing information. Capacities: Up to 200 levels of assembly, 32,000 structure records, and 32,000 part records. 32,000 Structure Records will occupy 200 Kbyte, 4,000 Parts/Megabyte, Programs require 700Kbyte.

No Warranty is made expressed or implied by Kaypro Corporation.

JOB COSTING

Maintains records of jobs

Call/See Terms for Price Compatible Systems: Kaypro 10

Program enables the user to maintain records of jobs, and is particularly suited to companies with one-off type production. Estimated costs are recorded on entry of a new Job and actual costs are logged to the job as it progresses. During the job's progress the current state of affairs can be interrogated at any time. On completion a report is printed fully detailing the costs, production time, variances from estimates, gross and net margin. Capacities: If storage unit allows, 32,000 Jobs, and 32,000 Transactions. File sizes: 4,000 Job Records would occupy a Megabyte, Programs 700Kbyte. Source: MBASIC 80 (Compiled). Comes on 8" DSDD, IBM 3740 format.

QCAL

Device-independent graphics subroutine package

Price: \$ 295.00

Compatible Systems: Kaypro II,4,10 (8")

QCAL emulates the Calcomp Basic Subroutine Package. The QCAL user (with Microsoft Fortran) may employ the industry standard calls (PLOT, AXIS, SYMBOL, etc.) but utilize many available graphic devices. A generation of prior graphics software becomes available, and new programs using QCAL handle graphics in a time-proven, standardized, and transportable manner. Metric capability is built-in. QCAL was demonstrated on the US exhibit at "Europe Software 82", and has users around the world. Options: many drivers for graphic devices. Source: FORTRAN. Includes a user's manual.

QCRYPT

CP/M file Encipher/Decipher command

Price: \$ 65.00

Compatible Systems: Kaypro II,4,10 (8")

Use QCRYPT as a command in any CP/M system to quickly encipher/decipher any specified file. Protect sensitive business data and records, development work, and even other commands. QCRYPT allows users to choose from over 7 trillion unique keys. High entropy algorithm makes derivation of keys from samples impractical even given full knowledge of algorithm. Reliability of this classic private key system exceeds that of weaker but more costly file enciphering systems available elsewhere. Your files may be deciphered by any other CP/M system running QCRYPT, provided the key is known.

ACCOUNTS PAYABLE MANAGEMENT

Automatically maintains a company's payables

Call/See Terms for Price Compatible Systems: Kaypro 10

This is a very easy to use system which can automatically maintain a company's payables, provide

No Warranty is made expressed or implied by Kaypro Corporation.

ACCOUNTS PAYABLE MANAGEMENT

cash flow projections, and generate checks! It is specifically designed for use by a small to medium business or professional practice and maintains full open item accounting on all invoices until fully paid. Video screen prompts allow very easy loading of vendors and provide full range error checking against duplicate account numbers, valid dates, dollar amounts, and all other items except actual spelling errors on names.

ACCOUNTS RECEIVABLE MANAGEMENT

A complete receivables system

Call/See Terms for Price Compatible Systems: Kaypro 10

This is a complete receivables system specifically designed for use by generalized small to medium size business. This system supports our unique Mixed-Mode Accounting method so that the operator may define some of the client accounts as full open item and others that are on a cash basis as balance forward for maximum disk space efficiency. In the case open item, the complete detail of all charges on each invoice remain fully available for review until fully paid. Clients may be referenced either by their account number or last name. Video screen prompts allow very easy loading of clients and provide full range error checking against duplicate account numbers, valid dates, dollar amounts, and all other items.

DENTAL MANAGEMENT

Dental system for small to medium clinic practice

Call/See Terms for Price Compatible Systems: Kaypro 10

This is the most complete Dental System available today for microcomputers! It is designed for use by a single dentist or a small to medium size clinic practice. The system maintains databases on each of the dentists, insurance companies, and ADA procedure codes that are being used in the practice, along with standard charges for each type of service. Once these have been

No Warranty is made expressed or implied by Kaypro Corporation.

Univair Incorporated

DENTAL MANAGEMENT

entered, they never have to be typed again! The system will automatically display the appropriate information on the video screen for the operator.

GENERAL LEDGER ACCOUNTING

Maintains accurate up to date records

Call/See Terms for Price Compatible Systems: Kaypro 10

Full double entry accounting can be maintained with the system automatically performing the normally tedious and time consuming task of verifying valid journal account numbers, displaying the descriptions, calculating and balancing each journal voucher entry, and determining the profit and losses, as well as the company's net worth. The Chart of Accounts is divided into nine basic categories: Current Assets, Fixed Assets, Other Assets, Current Liabilities, Long Term Liabilities, Equity, Income, Expenses, and Cost of Sales. Up to 1,000 different accounts may be set up within each category, and this may be further broken down into 999 different department per account, if desired, for absolute cost accounting purposes.

INSURANCE AGENCY MANAGEMENT

Insurance agency management system

Call/See Terms for Price Compatible Systems: Kaypro 10

One of the most dynamic breakthroughs realized recently in the Insurance Industry was the release of our Insurance Agency Management System! For the first time in history, independent agencies now have a management system complete with payables and receivables for most microcomputers that is so comprehensive that its power, speed, and other capabilities can actually match or exceed the performance of large main-frame systems costing 5 to 10 times more the price! No longer is it necessary to resort to time sharing services which are both expensive to use and too inflexible in input and report capabilities.

No Warranty is made expressed or implied by Kaypro Corporation.

INSURANCE AGENCY MANAGEMENT

LEGAL TIME ACCOUNTING

Designed for use by attorneys

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

This has been designed for use by attorneys who provide services on a time and expense basis. In addition to Case and Matter Management, the system contains a full Accounts Receivable package for clients which allows full open item accounting each case for a client. Personal or Commercial Accounts may be used and optional interest or finance charges may be assigned to any of the accounts if desired.

MEDICAL MANAGEMENT

Medical system for small to medium size clinic practice

Call/See Terms for Price Compatible Systems: Kaypro 10

This is the most complete Medical System available today for microcomputers! It is designed for use by a single doctor or a small to medium size clinic practice. The system maintains databases on each of the doctors, insurance companies, ICDA-9 diagnosis codes, and CPT-4 procedure codes that are being used in the practice, along with standard charges for each type of service. Once these have been entered, they never have to be typed again! The system will automatically display the appropriate information on the video screen for the operator.

ORDER ENTRY WITH INVENTORY CONTROL

An on line order entry with inventory control system

Call/See Terms for Price Compatible Systems: Kaypro 10

This system has been designed for use by wholesale or retail organizations who sell products from inventory

No Warranty is made expressed or implied by Kaypro Corporation.

Univair Incorporated

ORDER ENTRY WITH INVENTORY CONTROL

on a cash or credit basis. It includes a Point of Sale module as well as a fully integrated A/R module for regular charge customers. A vendor file is also maintained for input and tracking of all purchase orders as well as current inventory status, YTD sale status, items on order, and amounts owed to the vendor.

PAYROLL MANAGEMENT SYSTEM

Enhanced Payroll Management System

Call/See Terms for Price Compatible Systems: Kaypro 10

Scheduled for release in the first quarter of 1984 is the newly enhanced version of our Payroll Management System. This program is designed to be used by small to medium sized business concerns and contains a great deal of flexibility in use. This program is designed to be run completely stand alone, or can post into our G/L for automatic double entry accounting. It may also be run through Unilink, our hard disk control menu.

PROFESSIONAL TIME ACCOUNTING

Designed for use by various professionals

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

This system is very similar to our Legal Time Accounting System, except that it has been designed for use by accountants, CPA's, architects, consultants, and administrators who provide services on a time and expense basis. In addition to Project Management, the system contains a full Accounts Receivable package for clients which allow full open item accounting of each case for a client. Personal or commercial accounts may be used and optional interest or finance charges may be assigned to any of the accounts if desired.

PROPERTY MANAGEMENT

For residential income properties

No Warranty is made expressed or implied by Kaypro Corporation.

PROPERTY MANAGEMENT

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

This package has been carefully designed for Real Estate Agencies, Certified Property Managers, and other organizations who manage a great deal of residential rental income properties such as duplexes, apartments, condominiums, etc. Unlike other small programs which are only useful for personal residences, this system allows the operator to maintain an exact cost accounting on each separate building within a complex or project, as well as individual lease or rental units within each building itself. The system will run completely stand alone, but it can also be integrated with either our General Ledger or Super Ledger Accounting Systems.

SUPER LEDGER CLIENT WRITE UP

Enhanced General Ledger and Accounting system

Call/See Terms for Price Compatible Systems: Kaypro 10

This system is a special combination of our G/L Accounting system and our Standard A/P Management system, which has been designed for the discriminating businessman, or CPA's and Service Bureaus who also need full check writing capability and after the fact payroll processing. By combining these two packages, we are not only able to save the end-user a substantial amount on the purchase of these two functions, but it provides additional and more powerful integration capabilities with our General Ledger.

UNI-DATE

Date book with appointment calendar

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

In this new era of fast moving business, most professionals need to keep track of their current appointments and projects on a very timely basis. Not only do they need to know at a glance where they need

No Warranty is made expressed or implied by Kaypro Corporation.

Univair Incorporated

UNI-DATE

to be and who they are meeting with, but they need to be able to manage the resources of their company as well. UNI-DATE was created to fill this bill. It is a combination of an Appointment Scheduler and Datebook plus an excellent resource management system. UNI-DATE is included as a standard part of the system package in our OFFICE-STAR, LEGAL TIME ACCOUNTING, and PROFESSIONAL TIME ACCOUNTING PROGRAMS.

UNI-FILE

Database management system with report generator

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

UNI-FILE is one of the latest of the new generation Database Management Systems and Report Generators which is available on the market today! The system has been designed for regular daily use by secretaries, receptionists, and other office personnel who need to maintain computerized records but are not knowledgeable in actual programming. The system is completely menu driven and allows the operator to define as many data files as necessary which will be used in the course of business or personal use. Each record may contain up to 20 fields and a maximum of 512 bytes of information. The actual prompts to be used are specified by the operator as well as the maximum length and high low values.

UNI-LINK

Master hard disk control menu

Call/See Terms for Price Compatible Systems: Kaypro 10

UNI-LINK is an exciting new piece of software which provides the user with a convenient "Master Control Menu" from which all of our programs may be run without having to remember any initial start up commands for any specific program. Essentially, it is a single protective shell that is loaded just after the disk operating system and is designed to keep the operator

No Warranty is made expressed or implied by Kaypro Corporation.

UNI-LINK

in program control throughout most of the day. When active, UNI-LINK will display all of the programs and utilities which are available and the operator may simply select one of those functions from a simple menu system. When the specific task has been accomplished, the system will return back to the UNI-LINK menu rather than the disk operating system.

UNI-SORT

Special sorting interface

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

UNI-SORT is a refreshing new concept created by UNIVAIR which provides owners of our special Vertical Application Packages with an extremely powerful tool with which they can extract information out of data bases that already exist and create a secondary data base with certain preselected fields of information which can be used by our Database Management Systems or Word Processing Systems to perform numerous additional functions.

Home or small business accounting package

Price: \$ 245.00

Compatible Systems: Kaypro II,4,10

No Warranty is made expressed or implied by Kaypro Corporation.

POURNELLE ACCOUNTING PACKAGE

The package has programs for constructing a standard chart of accounts, using the chart, placing the entries into a general journal, and posting the journal into a general ledger, and printing both journal and ledger. These programs will print out in a standard accounting format as illustrated in textbooks. Audit trails including kind of transaction, check number, date, and explanatory remarks are preserved. Ledger pages have reference numbers to page and item of journal entry. The journal has extensive error checking to find out-of-balance entries. Source: CBASIC2 and CB-80.

Source code included.

THE TRANSPORTER

Sends files between different CP/M machines

Price: \$ 69.50

Compatible Systems: Kaypro II,4,10

The TRANSPORTER will send files between almost any two CP/M machines, and you need only one copy. It will even send itself. It doesn't need to be installed, nor does it require special equipment. Almost any matching serial ports, such as standard RS-232, or even some parallel ports, will do. It will work on any 7 or 8

No Warranty is made expressed or implied by Kaypro Corporation.

THE TRANSPORTER

bit serial port machine. Most importantly, it can send any kind of file - .COM, .INT, etc. Our copy policy on the TRANSPORTER lets you move the program to other machines and formats as long as you don't give or sell copies to anyone.

Source code included.

Warranty/Terms:
AGAINST DEFECTS IN WORKMANSHIP AND MATERIALS.

WRITE

A full-screen editor designed for the creative writer

Price: \$ 239.00 Compatible Systems: Kaypro II,4,10

Unlike many popular editors, WRITE does not store intermediate text files on disk while editing. This means that it works much more quickly and reliably. Its emphasis is ease of editing and the safety of text. This is a creative writing editor, designed for fact and fiction. It is superior for manual, documentation, and instruction writing.

ZIP INTEGRATED PRINTING SYSTEM

Allows laser printing of CP/M files

Call/See Terms for Price Compatible Systems: Kaypro II,4,10

ZIPS is a set of Printing Programs which allows files generated on a CP/M microcomputer to be run on the Xerox 8700 and 9700 Laser Printer. ZIPS can be used to merge individual names, addresses and variables into letters. It can be used to produce typeset originals for proofing and printing. Multiple copies of labels, articles, reports, directories, manuals - indeed whatever you can type into a microcomputer can be output on a laser printer. Using ZIPS, all of the features which the Xerox laser printer offers - large font selection from 4 to 24 pt, fixed and proportional fonts, high quality resolution, and 7,000 copies/hr. speed are easily accessed with a CP/M microcomputer and ZIPS.
